BENGAL ALMANAC; 1856.

Local Observations and Gardeners' Calendar.

January.

This is one of the most pleasant months in the year, its temperature is cool and refreshing, and extremely congenial to all but the victims of gout and rheumatism. The air at mid day is generally clear and wholesome, but the mornings and evenings are sometimes damp and foggy.

The thermometer ranges in the shade, from 52° in the morning to 65° in the afternoon.

A northerly wind prevails during this month, but seldom blows with much strength when it does, and is accompanied with rain the cold is very disagreeable.

In the meat market there is a plentiful supply of beef, mutton, veal, lamb, pork, kid, poultry, etc., of the most superior kinds.

Game also is to be had in great abundance—snipe, duck, teal, &c.

The fish market is well supplied with ~~various kinds of fish~~, or cockup, (the salmon of the East,) moonjee, rooe, (halibut), quoye, sowie, sciliah, blolali, ~~other~~ ^{others} of inferior descriptions.

Vegetables of all kinds are now in the highest state of perfection. The markets abound with green peas, cauliflowers, cabbages, turnips, potatoes, asparagus, yams, carrots, spinage, procous, cucumbers, radishes, celery, tresses, young mango, knot-khole, kutchou, French-beans, soem, brinjals, red and white beet, &c. &c.

Fruit trees, in general, begin to show their buds and blossoms this month, mangoes, peach, pumplionose haddock, rose-apples, &c.

The fruits in season are Sythet and China oranges, loquats, plantains, pine apples, long and round plums, and guavas, pumplionose, tipparah and a few others.

N.B.—The following fruits and vegetables, are procurable not only in this month but throughout the whole year viz—plantains, sugar canes, cocoanuts, guavas, pine apples, papaws, custard apples, jack, country almonds, tamarinds, osirah, burbutty, mint, sage, parsley, onions, radishes, lettuce, &c.

THE GARDEN.

The season is too far advanced to sow the generality of vegetables with much prospect of success, but turnips, carrots, love apples, vegetable marrow, all sorts of pumpkins, lettuce, endive, radish, mustard and rers, spinage and Nepaul spinage may be sown during all this month, also successive crops of late cabbage and knot-khole every fortnight. Turnips are said to succeed best when placed in rows they should be thinned to a distance of six inches from each other. Carrots rarely succeed well when planted season at this they should be thinned, but not transplanted, except when required for seed. Love apples when two or three inches high should be planted out imbedded five inches apart afterwards transplant in rows two feet from each other, with a frame work to run upon. Vegetable marrow should be sown in rich light soil earth as the stems as they increase and peg down the leading branches at a joint. Lettuce and endive should be sown in boxes or beds and transplanted at one foot apart from each other, they may also be sown in beds, and thinned to the proper distance—a few days before use they should be blanched by tying the tops of the outer leaves over the rest. Radish, mustard and cress may be sown every week or ten days the two last throughout the year. Spinage, to be sown in beds and thinned until the plants are one foot apart. Nepaul spinage should be planted in rows, with trailing work to run over this vegetable continues to flower and bring forth fresh leaves throughout the year, and requires no care. Cabbage and knot-khole should be sown in boxes or beds, and transplanted into other beds about three or four inches apart in three weeks or months they may be transplanted a second or third time especially the latter, when transplanted for the second time they should be put in well manured trenches at two feet from each other. Horse manure and guavas are strongly recommended for all the cabbage tribe. With care common cabbage and knot-khole may be raised during every month in the year, but those produced from the end of October to the middle of February are superior to any others.

They may be planted during the first week of this month also, and if the season were cool they may be raised to considerable perfection. From the middle of July to the early part of September, is the best time for planting peaches.

With the following vegetables and fruits are procurable in the market, in large quantities and at low prices—Carrots, turnips, cabbage, knot-khole, beets, Bombay and country cabbages, country double beans, winged beans, red and green pumpkins, Sythet and country oranges, pomegranates, guavas, tamarinds, mangoes, tipparah, Brazilian gooseberries, and several other kinds of fruit.

It is also to be observed that the small fruit thinned, where too thick.

February—March—April.

The finest flowers are now in bloom and at the end of the month the collection of flower seeds should commence. Indeed early mignonette and larkspur seeds may be collected in the beginning of the month. Sow early melon and water melon seeds, also the last crop of red pumpkins.

February.

This month is generally cool and comfortable, particularly if the northerly wind prevails, the weather afterwards becomes disagreeable, till a change of season takes place about the end of the month.

When the weather is variable, the wind blows principally from the N. W., varying round occasionally the N. E., attended with clouds and drizzling rain, this continues till about the 20th, when the southerly sets in. The weather now becomes mild and genial, the days, however, sometimes rather hot and the nights cold, with heavy dews.

The thermometer in the shade, ranges on a medium, from 58° to 72°.

The measles in children are very prevalent during the whole of this month.

Rheumatism and gout become less troublesome after the southerly winds have set in. Warm clothing comes rather unpleasant to new comers, but not so to old Indians, whose blood is not so easily heated. At times this month is rather showery, which protracts the cold season until the middle of the following month.

Meat continues good and abundant.

The fish market has the addition of the small hilsah, (the Indian mackerel.)

The additional vegetables are pumpkin and young cucumbers and the fruits custard-apples, mangoes, and small water melons.

THE GARDEN.

The remarks on last month apply generally to this, but there is less chance of success in rearing vegetables as the seedlings acquire much strength before the hot winds set in. Turnips and carrots rarely succeed, but radish, mustard and cress, lettuce, endive, spinach, and some of the cabbage tribe may still be sown in this month and throughout the year. Throughout this month the collection of flower seeds is carried on rapidly.

All the fruits, vegetables, and flowers, mentioned as procurable in the market in January may be had in as great perfection and as cheap as in the latter part of this month.

In this month peas are plentiful and the following may be obtained of good quality—Jerusalem artichokes, asparagus, duffus and French beans, scarlet runners, beets, brocoli cabbage, carrots, cauliflower, celery, endive, lettuce, knot-hole, onions, parsnips, spinach, turnips, and yams. Also the following fruits, custard apples, Brazil gooseberries, guavas, lemons, mulberries, pumplinose, raspberries, strawberries, peaches, pine apples and few other kinds. Melons and cucumbers should be sown during this month. Gather winter flower seeds. Lay bare, for a fortnight or three weeks, the roots of pink trees, to harden, and preserve them from being destroyed by white ants. Use house-plaster rubbish as manure when closing the roots.

March.

The thermometer ranges in the shade from 68° in the morning to 82° in the afternoon.

Various operations of husbandry, generally commence this month so soon as the ground is moistened by rain, this, however, sometimes happens at the latter end of February, and then it is occasioned by an unusual quantity of rain.

The meat at market continues good.

Fish to be had in abundance, and the market has the addition of the gooteah, a small but well flavored fish.

Green peas and turnips disappear at the end of this month, salad, cabbages, carrots and celery are on the decline, but asparagus and potatoes continue excellent. Green mangoes and unripe musk melons are to be had, also omrah, green and water cresses.

Fruit is also plentiful—large water melons appear about the middle of the month, and continue in perfection till the middle of June.

The north westers with thunder and lightning, and rain, generally appear towards the end of this month.

THE GARDEN.

But few vegetables come to any perfection that are sown in this month but it is desirable to sow successive crops of cabbage and lettuce which may be planted in beds which are partly protected from the sun, and transplanted into rows as required.

In the market, brined carrots and turnips may be procured in considerable quantities and pretty good. Turnips are generally very stringy towards the end of March, country radish and all kinds of country greens may be had in large quantities and all the kinds of fruit procurable in February are obtainable with the addition of green mangoes and jakes. Locusts a few dates and blackberries. Young plants should be watered this month, and encircled with a slight embankment, to retain the water which they must be afforded during the greater part of this and the two succeeding months. Melons and cucumbers, should be sown during this month also as well as grape and apple seeds, Indian corn and sugar cane. Sowing winter flower seeds.

April.

The beginning of this month is sometimes pleasant, particularly if the north western wind is frequent, middle and latter part are disagreeable in the extreme, it is one of the worst months of the year.

The thermometer ranges in the shade from 80° in the morning to 90° in the afternoon, when the sun, it rises to 110°.

The wind blows from the south, and is very strong throughout the month, and when it is from the absence of rain, it becomes oppressive. This state of the weather is very unfavorable to husbandry.

The north-westers are at times attended with dreadful storms of thunder and lightning, rain and hail fall in torrents, these storms sometimes occasion much damage, the north-westers at intervals till the beginning, and sometimes till the middle of May.

December, &c.

December.

The weather continues fair, cool, and on the whole, extremely fine, throughout the month, with a light northerly wind.

The days and nights are cold and clear, and the mornings and evenings foggy, particularly at the latter end of the month.

The thermometer ranges from 58° in the morning to 65° in the afternoon

The meat and fish markets are in great perfection, both as to quantity and quality: game of all kinds in abundance.

The vegetable market is excellent, yielding green peas, young potatoes, lettuce, young onions, radishes, sweet potatoes, French beans, cucum, brinjals, yam, carrots, turnips, greens, young cabbages and cauliflower.

The fruit market continues much the same as last month—Brazilian gooseberries (tipperahs) make their appearance this month, together with wood apples and other fruits.

THE GARDEN.

In the beginning of the month sow French beans, scarlet-runners, broad and Windsor beans. Peas sown in this month produce scantily. Plant out late criers, from boxes to beds, and remove from beds to trenches. Sow late cabbages and knol khol, and transplant as above. Vegetable marrow may be sown in the early part of this month in light rich soil. Earth up the stems of the plants as they increase in growth, and peg the leading branches down at a joint, and they will strike root.

Potatoes may be planted until the end of this month, but those sown during the first fortnight are most likely to succeed. When potatoes are planted whole, the produce is finer than when they are divided into two or three pieces; but the same number of potatoes yield a far larger crop by the latter than by the former method. Potatoes should be planted in beds fully exposed to the sun. In rather shady places the crop is small, and when altogether excluded from the direct rays of the sun, they produce nothing.

European and native vegetables are plentiful during this month, and also all sorts of brinjals, sweet potatoes, yams. Fruits are scarce, except plantains, plums, goose-berries, guavas and oranges. Flowers of all kinds are abundant.

A good month for sowing early musk melon and dwarf cucumber seeds, as well as peas, radish, and spinage but very few other vegetable seeds. Most of the exotic plants will also now be flowering.

Strawberries come in at the middle of this month, and last through all the next.

Chronological Cycles.

Golden Number,	14	Dominical Letter,	F E
Epact,	23	Roman Indiction,	14
Solar Cycle,	17	Julian Period,	6569

The Solar Cycle, or Cycle of the Sun, is a period of 28 years, in which all the varieties of the Dominical Letters will have happened, and they will return in the same order as they did 28 years before. This Cycle commenced nine years before the Birth of Christ.

The Lunar Cycle, or Cycle of the Moon, commonly called the Golden Number, and sometimes the Metonic Cycle, (from Meton, an Athenian, who invented it about 432 years before the Birth of Christ,) is a revolution of 19 years, in which time, the conjunctions, oppositions, and other aspects of the Moon are within an hour and a half of being the same as they were on the same days of the months 19 years before. The prime, or Golden Number, is the Number of years elapsed in this Cycle. At the fifth, the Golden Number was 2.

The Roman Indiction, is a period of 15 years, used by the Romans for the time of taxing their provinces. Three years of this Cycle had elapsed at the Birth of Christ.

The Julian period contains 7980 years, and arises by multiplying together 28, 19 and 15, being the Cycles of the Sun, Moon and Indiction. This was also contrived as a period for chronological matters, and, is assumed, as a correct and fixed rule in Calculations, by all the Astronomers and chronologers throughout the Christian world. Its beginning is supposed to have commenced 710 years before the usual date of the creation of the world, or 4714 before the commencement of the Christian Era.

TO FIND THE LEAP YEAR

Divide the given year by 4, and if there be no remainder, it is Leap Year, but if 1, 2 or 3 remain, they show how many years after leap year.

TO FIND THE MOON'S AGE

Take the number of the year, add the number for the month, and the day of the month the sum, if it does not exceed 30, will be the Moon's Age, but if it does, subtract 30 from it, and the remainder will be the Moon's Age.

TO FIND THE EPACT

Divide the year by 19, multiply the remainder by 11, and the product will be the Epact, if it does not exceed 30, then divide the product by 30, and the last remainder will be the Epact.

Under the word years had the year above which is the Dominical letter for that year; then against the months find the same letter over which are placed the days of the month for every Sunday in the month. In leap year for January and February, use the letter above the blank space before the year, for all the rest of the months, use the letter for the year.

To find out when it is Leap Year divide the year by 4, if there is no remainder, it is Leap Year, and if any remainder, it is 1, 2 or 3 years after Leap Year.

Explanatory Notes for the Year.

1 DOMINICAL LETTERS—The seven days of the week, reckoned as beginning on the 1st of January, are designated by the first seven letters of the alphabet, A, B, C, D, E, F, G, and the one of these, which denotes Sunday, is the dominical letter. Thus, if the year begin on Sunday, the dominical letter is G, if on Tuesday, it is E; if on Monday, that letter is F, if on Wednesday, it is D; if on Thursday, it is C; if on Friday, it is B; if on Saturday, it is A. The next day B, and so on generally. To find the dominical letter call New Year's Day A, the next day B, and so on till you come to the first Sunday, and the letter, that answers to it, is the dominical letter. If there were 364 days, or exactly 52 weeks in the year, the dominical letter would be always the same, but the year contains 365½ days, an excess of 1½ day over 52 weeks. The day is taken into the account every year, and the one fourth makes a day in every four years; so that the dominical letter falls backward one letter for each of the three years in which the day is not added, of the year cannot be divided without remainder, by 4, and, two letters every fourth year. Thus, the date can be so divided, as in the year 1828, it is divisible by 4 and therefore, February with 29 days. The year began on Tuesday; count forward Tuesdays to Sunday, inclusive, and the sixth letter from A inclusive is F. Therefore at first, F is the dominical letter, but the 1st of February, which is added, or intercalated, throws the 1st day of March a day later, so that the dominical letter for March and all the months will be E. The years, which have the 29 days to February, and the two dominical letters are called *bisextiles*, for the reason already given of leap years; because the day of the month, after February, leap over a day of the week. In law, the 28th and 29th of February are accounted one day.

2 **THE GOLDEN NUMBER** At the end of every nineteen years, the new and full moons happen at very nearly the same times of the year. The ancients discovered this, and reckoned the nineteen years, or "cycle of the moon" as it is called, so that it terminated the year before the Christian era. This cycle was marked by the Greeks with letters of gold. Therefore, to find the golden number or numbers of the year in this cycle, add 1 to the date, divide by 19, the quotient is the number of cycles of the moon since the birth of Christ, and *remainder is the golden number*, as the present year is 1828, add 1 is 1829, divide by 19, is 96 cycles and there remains 5, *the golden number*.

3. **THE CYCLE OF THE SUN** is the number of years that elapse before the Sundays throughout the year, happen on the same days of the month. If there were 364 days in the year, that would happen every year, if 365, it would happen every seventh year, but because the one-fourth of a day makes an alteration of a day every fourth year, the cycle must extend to 28 years. Nine years of this cycle had elapsed before the birth of Christ. Therefore, to find the cycle of the sun add 9 to the date, divide by 28, the quotient is the number of cycles since the birth of Christ, and the remainder is the cycle of the sun; as for the year 1828, and 9, is 1837, divide by 28, the quotient is 65 cycles, and the remainder is 17 the cycle of the sun.

4. **THE EPOCH** is the moon's age for the first day of January, or the *equation* between the beginning of the solar and the lunar year. The time from one new moon to another is about 29½ days. Thus there are, in a year, twelve revolutions of the moon, and 11 days over, therefore, the twelfth new moon will take place 11 days earlier each year than it did the year before. In the lunar cycle of 19 years, there are 12 new moons in each, of 12, and 13 in each of 7, because the 11 days of yearly difference in three years exceed a lunar month by 7½ days. If it were not for the odd minutes and seconds, the age of the moon on the 1st of January, could always be found, by multiplying the golden number by 11, and dividing by 30, then the remainder would be the *epoch* or age of the moon on the 1st of January. The following method will answer for the *day* of the moon's age on the 1st of January, till the end of the present century. Take 1 from the golden number, multiply what is left by 11, divide by 30, the remainder is the *epoch*, or moon's age on the 1st of Jan. as for 1828 the golden number is 5, take away 1, leaves 4, multiply by 11, is 44, divide by 30 remains 14, the *epoch*, or moon's age on the 1st January.

5. **THE NUMBER OF DIRECTION** is the number of days after the 22d of March, including both days, upon which Easter Sunday takes place. For instance, the number of Direction for 1828 is 16, Easter Sunday is April 6, being 16 days inclusive from March 22.

6. **EASTER** is directed to be celebrated on the first Sunday after the full moon that happens next after the 21st of March, which being the fourteenth day of the first Jewish month, corresponds to their first day of the week after the Passover, the anniversary of the resurrection of Christ. The time at which this day must happen, varies with the year, but the limits within which it must fall, are the 22d of March and the 25th of April, inclusive, making a period of 35 days.

The Dominical letter for that year will be D.

The Golden number 1830 ÷ 19 leaves 6, then 6 - 1 = 5 + 11 = 16 — leaves 25 the *epoch*.

Then for Easter limit 25 + 6 = 31 take away 30 leaves 1, and 30 - 1 = 49 days after the 1st of March, to the Easter full moon. Again.

Dis 4, add 4 = 8 and 49 - 8 = 41, 42 - 42 = 1, and 49 + 1 = 50 days from March 1st to Easter, including both. Take away 31 for March, leave 19, the day of April on which Easter will happen in 1829.

7. **THE ROMAN INDICTION** The cycle of indiction has no connection with the motions of the Sun and Moon, further than its consisting of 15 years. It was established by the Emperor Constantine, in the year 312, to regulate certain payments by the subjects of the empire, therefore to find it for any year subtract 312 from the date divide by 15, and the remainder is the Indiction, as from 1828 subtract 312 leaves 1516, divide by 15 leaves 1 the Roman Indiction.

8. **SEPTUAGESIMA SUNDAY** is the ninth Sunday before Easter.

9. **SHROVE SUNDAY** is the seventh before Easter.

10. **WHIT SUNDAY** is the seventh after Easter.

11. **TRINITY SUNDAY** is the eighth after Easter.

12. **ADVENT SUNDAY** is the Sunday nearest the 30th of November, whether before or after.

When Easter is known, any of the days that depend on it can be easily found as, 1828 Easter is April 6 Whit Sunday is 7 weeks, or 49 days, after, then from 30 days in April leaves 24, 24 from 49 leaves 25, therefore. Whit Sunday, 1828, is the 25th of May.

Calculations of the Almanac

Notes on the Computations of the Almanac.

1.—The times given in this Almanac are the civil or common reckoning of time, from Midnight to Midnight. The column of the Sun's Meridian passage is calculated to the nearest hundredth part of a second of time for every day of the year, with the same accuracy as in the Nautical Almanac. A watch ought to point exactly to the hour indicated for that day, when the Sun-dial marks twelve. There is no need now to refer to a table of Equation of time, should however this Equation be required, it may be had as readily, it is the time beyond 12h or the time wanting to 12h, given in this column for each day of the year. The Moon will serve as well to set or compare a watch by the same Sun dial, let the shadow of the gnomon fall on 12h, a watch ought to show at the same moment the time indicated in the column "Moon on Meridian," answering to the day the observation is made, which time is calculated to the nearest tenth of a minute. Should the shadow fall on any other hour, as 3, 4 or 5, add to the time indicated in that same column, about 62 minutes for every hour after 12, but should the dial show 6h, 8h, or 11h, as many minutes (92) must be deducted for every hour before 12.

2.—The column of Sun's Declination at noon for each day in the year, being computed by second differences, is as correct as that given in the Nautical Almanac.

3.—The present mode of denoting the times of Moon's Phases and Moon's Meridian Passage; Afternoon and After Midnight, has been substituted for Morning, Afternoon, Evening and Night.

4.—The two columns of the Sun's rising and setting include the refraction, which causes the Sun and all the heavenly bodies to rise on the eastern horizon about two minutes earlier, and to set on the western about two minutes later than they would rise or set were the Earth not surrounded by an atmosphere. Refraction is not exactly of the same duration throughout the year, the duration is in proportion to the obliquity of the Sun's rising or setting.

5.—At the head of each month, will be seen whether Saturn, Jupiter, Mars or Venus is visible in the Morning or Evening, and on which days of the month these planets will be in conjunction with the Moon, also on which days and whether at night or in the day Boreas may be expected or will be of certain occurrence. In general they may be expected sometimes for several days successively at every Full and New Moon, but when the Moon's Parallax is high, viz when the Moon is about her Perigee or nearest distance from the Earth at the time of Full or New Moon, the Bores are of certain occurrence.

6.—When the symbol (\odot) denoting opposition occurs, such as on the 12th December 1856, we are to understand that the Moon does not pass the Meridian of Calcutta, on that (civil) day. This is the case once or twice in every Lunar month, and arises from the circumstance of the Lunar day being longer than the mean Solar day, in the present instance the excess is $6\frac{1}{10}$ m or the Lunar Day is equal to $25\text{h } 3\frac{1}{10}\text{m}$. The Moon passes the Meridian on the 11th December in the evening at $11\text{h } 46\frac{1}{10}\text{m}$ or $13\frac{1}{10}\text{m}$ before midnight and does not return to the same Meridian until $49\frac{1}{10}\text{m}$ after midnight on the 13th December.

7.—And because the Moon does not pass the Meridian in every civil day, but fails to do so once at least on every civil month, and as one Meridian passage of the Moon produces only two High Water tides, sometimes three wanting, therefore on two days every month, falling sometimes after Midnight sometimes after Noon, there is but one High Water given. The march of the tide-wave over the surface of the ocean is of immense rapidity, the crest of the wave travelling round the globe in every Lunar day.

8.—In a place like Calcutta, so far removed from the Sea, the tides are strongly affected by the monsoons, occasional winds, the freshes, and various local causes, so that it will always remain an imperfectly solved problem to give the times of the High Water with accuracy. It will always however be found that for any period there will be only twice the number of High Water tides, as the Moon passes the Meridian.

9.—It should be recollected that the time of High Water is not that when the ships in the river turn round, but that when the water is actually highest, which always happens about half an hour before the current is changing its direction.

10.—At the head of each Month, the observations of the Highest and Lowest Pressure and Temperature are given. The Least Temperature is at Sunrise, the Greatest Pressure at $9\text{h } 50\text{m}$ A. M. the Greatest Temp at $2\text{h } 40\text{m}$ P. M. and the Least Pressure at 4h P. M. The observations of the Barometer are recorded in inches and hundredth parts of an inch.

The Temperature registered is that of the air in the shade, but besides this, the power of the Sun's Rays at the time of the greatest temperature is also given.

N. B.—This Table shows the actual time of high water at, and corresponding to, the number of days after the full and change of the Moon, when not influenced by local causes, after which time, the water begins to fall, although the tide of flood continues to run for about an hour; in the same manner the water is at its lowest, nearly two hours before the ebb tide is done, and begins to flow the last hour of the ebb, subject however to some variations according to the season, and from local causes.

Examples. What will 1 Rupee amount to, put out to Compound Interest for 20 years at 7 per Cent, per Annum?

Answer To about 5,24,286 Rupees, out at Compound Interest for 5 years, 153 days—200 years being 19 times the period of doubling, and 5 years, 153 days, over it.

COMPARATIVE TABLE FOR THE VALUATION OF INDIGO.

If Exchange per one Sicca Rupee be	10 Rupees per one Factory Maund equals Net* per 1 lb	1 Shilling per 1 lb, equals Net* per 1 Factory Maund

* That is, deducting more than 14 per cent. from the Factory maund, to meet all charges and contingencies. The Factory maund, 74 lbs. 62-100 is thus taken at 64 lbs.

The use of this Table is obvious. If Indigo sells in Calcutta at 200 Rs per maund, and Bills in London at 2s. per 1 R.—what price must be expected in London to render the purchase of Indigo or bills indifferent? by column 2d—

Rs	D	Rs	S d
10	3 75	200	6 3 the answer.

The third column will give the same result.

If the London price of Indigo be assumed at 7 shillings per lb and Bills on London sell here at 2s. 3d.—how much can a buyer give for a maund of Indigo without fear of loss?

From column 3d—

Sh	Rs.	Sh.	Rs
1	33 39	70	23 1/2 Answer.

The same result is obtainable from column 2d.

TO REDUCE BAZAR WEIGHT INTO FACTORY WEIGHT.

Add 1-10th, and, vice versa, deduct 1-10th.

Thus, 3,000 Bazar Maunds.

Add 1-10th 300

3,300 Factory Maunds.

To reduce Bazar weight into Cwt., add 1 10th and deduct 1-3rd of that sum, the remainder will be Cwt.

Thus: 3,300 Bazar Maunds.

Add 1-10th 330

3,630

Deduct 1-3rd 1,140

Remainder 2,490 Cwt.

To reduce Factory Maunds into Tons, divide by 30, and the quotient will be the answer.

Thus, Factory Maunds 3,000 ÷ 30 = 100 Tons.

Weights and Measures.

BRITISH-INDIAN WEIGHTS AND MEASURES.

The unit of the British Indian ponderary system* is called the *tola*†. It weighs 180 grains English Troy Weight. From it upwards, are derived the heavy weights, viz. *Chitak*, *Seer*, and *Mun* (or Maund),—and by its subdivision the small or jeweller's weights, called *mashas*, *ruttees* and *dhans*.

The following scheme comprehends both of these in one series

The *Mun* (or that weight to which it closely accords in value, and to which it is legally equivalent in the new scale) has been hitherto better known among Europeans by the name of *Bazar Maund*, but upon its general adoption, under Regulation VII. of 1833, for all transactions of the British Government, it should be denominated the **BRITISH MAUND**, (in Hindce, *Ungīzzer Mun*.) to distinguish it at once from all other weights in use throughout the country.‡

The *Pusserree* is, as its name denotes, a five-seer weight, and therefore should not form an integral point of the scale, but as its use is very general, it has been introduced for the convenience of reference.

The *Seer* being the commonest weight in use in the retail business of the Bazaars in India, and being liable, according to the pernicious system hitherto prevalent, to vary in weight, for every article sold as well as for every market, is now to be uniform. 32 931 every article sold as well as for every market, is now to be uniform. 32 931 generally referred to the common unit in native mercantile dealings, or *bazar seer* of so many *tolas*, (or sicca, bhurrees, takas, &c.) The standard *seer* being always 80 *tolas*.

* The advantages of this system are—

1. That the maund formed from the modified weight would be precisely equal to 100 English troy pounds and

2. That thirty five seers would also be precisely equal to seventy-two pounds avoirdupois;—thus establishing a simple connection, void of fractions, between the two English metrical scales and that of India

† For particulars of Madras and Bombay Weights and Measures, *vide* respective Directories
‡ In the same way the Madras, Bombay and Furukhabad rupee (when the sicca rupee is abolished, and an English service adopted,) may be called the **BRITISH RUPEE**, and in the native languages *Ungīzzer Rupyā*.

Weights and Measures.

The *Chitak* is the lowest denomination of the gross weights, and is commonly divided into halves and quarters, (called in Bengalee *kacha*,) thus marking the line between the two series, which are otherwise connected by the relation of the seer, &c. to the tola

The *Tola* is chiefly used in the weighing of the precious metals and coin; all bullion at the mints is received in this denomination, and the tables of bullion produce (as seen in the foregoing pages) are calculated per 100 tolas. It is also usual at the mints to make the subdivisions of the tola into annas (sixteenths) and pie, in lieu of mashas and ruttees

Mashas, ruttees and *dhans*, are used chiefly by native goldsmiths and jewelers. They are also employed in the native valuation by assay of the precious metals: thus 10 mashas fine, signifies 10-12ths pure, and corresponds to "10-oz. touch" of the English assay report or silver. There is a closer accordance with the English gold assay scale, inasmuch as the 96 ruttees in a tola exactly represent the 96 carat grains in the gold assay pound, and the *dhan*, the quarter gram.

Comparison with Troy Weights.

For the conversion of English troy weights into those of India, the following scale will suffice, since the simplicity of their relation renders a more detailed table unnecessary.

Lb. Troy	Ounce	Penny-weight	Grain	TOLAS and Denoms.
1	12	240	5760	= 32 000
	1	20	480	= 2 666 &c
		1	24	= 0 1333 &c
			1	= 0 0055 &c

The accordance of the *min* weight with the 100 lbs troy of England, affords a ready means of ascertaining its relative value in the Standards of other countries employed in weighing the precious metals, since tables of the latter are generally expressed in lbs. troy. The following are a few of those valuations for the principal weights of Europe, &c. extracted from *Kelly's Combiat*, page 222. The weights in troy grains have been converted into *tolas* by dividing them by 180.

Required the equivalent of 5753 maans 35 seers 6 chutaks in avoirdupois pounds

Taking the number opposite to 72, 35 and 30 respectively, and removing the decimal point—in the first, three places to the right hand, —in the second, one place to the right, and in the third one place to the left, we have

$$\begin{aligned}
 57000 \text{ maans} &= 109980 \\
 350 &= 2800 \\
 3 &= 246.857 \\
 37 \text{ seers} &= 76.114 \\
 6 \text{ chut} &= 771
 \end{aligned}$$

$$\text{Ans. } 17^{\circ} 1099712 = 12 \text{ ounces nearly}$$

Since 35 seers are exactly equal to 72 pounds avoirdupois, the following simple and accurate rules for their mutual conversions will be found equally convenient with the table.

RULE I—*To convert Indian weight into avoirdupois weight.*

1. Multiply the weight in *seers* by 72, and divide by 35—the result will be the weight in *lbs. av.*

2. Or multiply the weight in *maan* by 36, and divide by 49: the result will be the weight in *lbs. av.*

RULE II—*To convert avoirdupois weight into Indian weight.*

1. Multiply the weight in *lbs. av.* by 35, and divide by 72—the result will be the weight in *seers*.

2. Or multiply the weight in *cwt* by 49, and divide by 36: the result will be the weight in *mons*, or *mauns* *

* For facility of recollection, this rule may be expressed in arithmetical poetry thus:
 Of one hundred weights should you in line

A *mon* in India *mons* to fix

First multiply by forty-nine,

And then divide by thirty-six.

Weights and Measures.

The word *mun*, of Arabic or Hebrew origin,* is used throughout Persia and Northern India, but, as might be expected, it represents very different values in different places: thus the *mun* of Tabriz is only $6\frac{1}{2}$ lbs. avoird. while that of Pallode, in Ahmednuggur, is $163\frac{1}{2}$ lbs.

It is probable that the *seer* or *sér*, a Hindu weight (*setak*), was more uniform than the *maund*, since it was founded upon the *tola* (*tolaka*), which, with its subdivision, the *wassa*, must in very ancient times have been extensively known throughout commercial Asia: there can be little doubt that the *sale* and *mace* of the Chinese are identical in origin.

It may be generally assumed that the *maund* system follows the common scale, viz.

16 *chitak* = 1 *seer*

40 *seers* = 1 *maund*.

20 *maund* = 1 *candy* or *maunee*.

The use of a five-*seer* weight also universally prevails under the name of *pusséer*, *dhuree*, or *vis*. The *dhuree*, from its name, however, seems to be properly a measure, and accordingly, while in Malwa it is equal to 5 *seers*, in other places it is found of 4, $4\frac{1}{2}$, $5\frac{1}{2}$, 10, 11 and 12 *seers*. The terms *athola*, *adhelee*, (half,) *pao*, *powah*, (quarter,) *adhpao*, (half-quarter,) frequently occur: they explain themselves.

NOTICE

The publishers believing that it would be a convenience to the Mercantile Community of Bengal and Agra, to have correct returns of the varying systems of weights and measures prevailing in the interior districts, have obtained through the kindness of the authorities the following detailed returns. Much additional matter and several corrections are given in the present edition.

The subdivisions of the ponderary systems, throughout the whole of British India, generally agree in name, though they differ in value. Thus in every case

(Variable) *Dhan*, = 1 *Ruttee*.

8 *Ruttee*, .. = 1 *Masha*.

12 *Masha*, .. = 1 *Tolah*.

(Variable) *Tolah*, = 1 *Chitak*.

16 *Chitaks*, .. = 1 *Seer*.

40 *Seers*, = 1 *Maund*.

The number of *Dhans* in a *Ruttee*, and the number of *Tolaks* in a *Chitak* are arbitrary. The annexed Tables show all the varieties that have been brought to notice. To save needless repetition we shall refer to them as may be necessary, and give in detail only the peculiar systems of each district.

The linear measures of India generally are based on the following system:—

5 Ungoolies or finger's breadth = 1 mooohuka or palm.

6 Mooohuks = 1 hustu, or hath, or cubit.

ALSO

14 Jussoos or lengths of the }
first joint of the thumb } = 1 bath or cubit.

20 Jussoos = 1 guj or clothier's yard.

24 Jussoos = 1 guj or artificer's yard.

42 Ungoolies = 1 Mahomedan guj or yard.

Weights and Measures.

From the very careful investigations of Major Jervis, as given in this work on Indian Meteorology, it appears that.

1 Cubit or hath of 14	} = 19.5489 inches.
Jussoo or 24 ungoolee.	
1 Guj of 20 Jussoo	= 27.9271 "
1 Guj of 24 Jussoo	= 33.5125 "
1 Guj of 42 ungoolee	= 34.2106 "

The standard or Ilahce guj used in the land settlement of the North Western Provinces has been fixed at 33 inches, whence

33 Inches	= 1 Ilahce guj.
3 Gujs	= 1 Bans or measuring rod.

$$20 \times 20 = 400 \text{ Sq Bans} = 1 Beggah = 3025 \text{ Sq yards.}$$

In Bengal the hath or cubit has been assumed to be 18 inches in length, and thus generally

4 Square Haths	= 1 Square Cowrie or Kurra.
4 " Cowrie	= 1 " Gunda.
20 " Gundas	= 1 " Kutta.
20 " Kuttas	= 1 Beggah = 1600 Square yards.

These are the beggahs most in use, and are the only values referable to fixed standards. The hath may be said to vary between 15 and 30 inches, and the beggah between 1500 and 3000 square yards. The data at present before us are not sufficiently precise, and we have consequently not effected an accuracy which in truth we could not attain.

In some parts of this zillah, the two persons who carry the measuring rope, fasten the ends to their shoulders. One

precedes, and when he has gone the whole length of the rope he places a stick in the ground, as a mark which the other removes as he comes up to it. The mechanical impossibility of pulling the rope straight, renders this mode of measuring incorrect, and the error is roughly compensated by a deduction of 2 cubits in each rope, or 4 cubits in each beegah, this is termed 'Hattah' and 'Kandah.'

BURMAH.

Measures of Distances.

The Burmese make use of two measures of distance; one they call 'the poorman's measure,' and the other, the 'chief, or great man's measure' This last is the Royal or Standard measure, but the other is in most common use, except in matters where the Government is concerned.

100 Tas } = 1 Daing { 1- 7- 200 0 0
7000 Tounge } { 2 nearly.

The equivalents given above are for the poor man's measure. Theet Maik, Two, Tounge, Ta and Daing are the Measures in most frequent use. The Royal cubic Thantoung, which is the Government standard, upon being carefully compared was found to measure exactly 19 $\frac{1}{2}$ English inches. According to this, the finger-breadth (Theet) which is that of the fore-finger taken at the middle point $\frac{1}{16}$ of an inch; the fathom (Lan.) 76 $\frac{1}{2}$ inches; the D bamboo (Ta) 138 $\frac{1}{2}$; and the Daing 2 miles, 103 yards 2 feet-8 inches.

In the Tenasserim Provinces, however, the English foot measure is coming into use, and will soon supersede those above given.

Measures of Capacity.

These measures are so rude in construction, that it is useless to come nearer than the following in their equivalents:—

Cubic Inchs. Avor. Ws. nearly. Weight of distilled water in English measure nearly.

2 Lamyets	= 1 Lamey			
2 Lameys	= 1 Tsalay	34s	1 $\frac{1}{2}$ say	1 Pint.

4 Large Yowes	1 He.	4 Mats.....	1 Kyat (Tiral)
2 Bes	1 Mon.	100 Kyats.....	1 Picktha (Viss.)

The term a Khwet is substituted for Picktha, in connection with any capital number as a Khwetta Ishay (Akhwet ten) is 10 Picktha or Viss, Akhwetta Ishay (Akhwet forty) is 40 Picktha or Viss.

The average weight of a Kyat (tical) is 252 grains Troy, or exactly 1 Cubic Inch of distilled water at the temperature of 60, and 100 Kyat or 1 Picktha (1 Viss) is 140 Tolas exactly.

The Burman balance is capable of showing a couple of grains.

CONVERSION OF BRITISH EUROPEAN WEIGHTS INTO BRITISH INDIAN WEIGHTS, AND VICE VERSA.

By Regulation VII. of 1833, a new British Indian system of weights has been ordered; but the change not being enforced by any penal enactment, the new weight has been adopted by a very few European houses, while it is the only one in use at the several Government offices of Calcutta,—the Custom House, the Mint, the Treasury, the Bank, and the Police.

The difference however between the new and the old system is extremely small, viz. the unit or tolah was the old Moahshedabad rupee, and weighed 179,666 Troy grains. By the said Regulation the tolah is of 180 grains Troy, and therefore exceeds the old one by one-third of a grain, which difference makes the new bazar or Indian maund heavier than the old one by about one chitak and a quarter, or 222 ounces Troy.

The following tables have been calculated on the old elements of Indian weights, as being still of a more general use. If it was necessary to convert old bazar maunds into new ones, the operation would consist simply in the following rule:—

A (The old Weight): Y (The new Weight): :: 179 666 : 180,000..

* Known among Foreign Merchants by the term Basket.

NOMINATION OF STUDENTS.

Regulations and Preparatory Instructions.

No Candidate can be admitted into the College whose age is less than *seventeen* or above *twenty-one* years. And no person who has been dismissed from the Army or Navy, or expelled from any place of education, will be nominated to the College.

The parents or guardian of every candidate for the college will be required to address the following letter to the nominating Director

Sir,—I beg to assure you, on my honour, that my ———, to whom you have been so good as to give a nomination to the college, has not been dismissed from the Army or the Navy, and that he never has been expelled from any place of education

I have the honour to be, &c.

Candidates for the college must produce the undermentioned documents, previously to their being nominated as students.

An extract from the parish register of their birth or baptism, properly signed by the minister, churchwarden, or elders; and, in addition thereto,

A certificate, agreeably to the following form, signed by the parent, guardian, or near relation.

I do hereby certify, that the foregoing extract from the register of baptisms of the parish of ———, in the county of ———, contains the date of the birth of my ———, who is the bearer of this, and presented for a nomination as a student at the East India College, by ———, Esq., and I do further declare, that I received the said presentation for my ———, gratuitously, and that no money or other valuable consideration has been or is to be paid, either directly or indirectly for the same, and that I will not pay or cause to be paid, either by myself, by my ———, or by the hands of any other person, any pecuniary or valuable consideration whatsoever, to any person or persons who have interested themselves in procuring the said presentation for my ———, from the Director above mentioned

Witness my hand, this ——— day of ———, in the year of our Lord ———

In the event of no parish register existing or to be found, a declaration of such circumstance is to be made before a magistrate to the following effect, viz.

I, ———, presented as a student for the East-India College, by ———, do declare, that I have caused search to be made for a parish register whereby to ascertain my age, but am unable to produce the same, there being none to be found; and, further, I declare, that from the information of my parents (and other relations), which information I verily believe to be true, that I was born in the parish of ———, in the county of ———, on ———, in the year ———, and that I am not at this time under the age of seventeen, or above twenty-one years

Witness my hand, this ——— day of ———,
in the year of our Lord ———.

The parent, guardian, or near relation, must then add his certificate as to the truth of the declaration, which must be similar to that ordered to be annexed to the extract from the parish register

The above-mentioned certificate (and declaration, in cases where a declaration shall be required) are to be annexed to the petition to be written by the candidate, and they are to sign a declaration hereon, that they have read these printed instructions. The same declaration is to be signed by the parent, guardian, or near relation of the candidates respectively.

Candidates will be interrogated in an open Committee as to their character, connexions, and qualifications, conformably to the General Court's resolution of the 6th July 1809. The nature of this interrogation may be known on application to the Clerk of the College department. And the following Rules and Regulations are to be observed with respect to the examination of candidates:

Each candidate shall produce testimonials of good moral conduct, under the hand of the principal or superior authority of the college or public institution in which he may have been educated, or under the hand of the private instructor to whose care he may have been confided; and the said testimonials shall have reference to his conduct during the *two years* immediately preceding his presentation for admission.

Each candidate shall be examined in the Four Gospels of the Greek Testament, and shall not be deemed duly qualified for admission to Haileybury College, unless he be found to possess a competent knowledge thereof, nor unless he be able to render into English some portion of the works of one of the following Greek authors — Homer, Herodotus, Xenophon, Thucydides, Sophocles, and Euripides, nor unless he can render into English some portion of

Addiscombe Military Seminary

the works of one of the following Latin authors :—Livy, Terence, Cicero, Tacitus, Virgil, and Horace, and this part of the examination will include questions in ancient history, geography, and philosophy.

Each candidate shall also be examined in English history and geography, and in the elements of mathematical science, including the common rules of arithmetic, vulgar and decimal fractions, and the first four books of Euclid. He shall also be examined in the first part of Paley's Evidences of Christianity.

It is, however, to be understood, that superior attainments in one of the departments of literature or science, comprised in the foregoing plan of examination, shall, at the discretion of the examiners, be considered to compensate for comparative deficiency in other qualifications.

The examinations are held at the East-India House, half-yearly, in the months of *January and July*.

A student publicly expelled the college will not be admitted into the Company's civil or military service in India, or into the Company's Military Seminary.

No person can be appointed a member of the Company's Civil Service whose age is less than eighteen or more than twenty-three years, nor until he shall have resided four terms at least in the college, and shall have obtained a certificate signed by the Principal of his having conformed himself to the statutes, and regulations of the College.

On a student's appointment to be a Member of the Civil Service he will be required to attend at the Secretary's Office, East-India House, to make the necessary arrangements for entering into covenant, and for giving a bond for £1,000 jointly with two sureties for the due fulfilment of the same, and a legal instrument is to be entered into by some one person (to be approved by the Court of Directors) binding himself to pay the sum of £3,000, as liquidated damages, to the Company, for breach of a covenant to be entered into that the student's nomination hath not been in any way bought, or sold, or exchanged for any thing convertible into a pecuniary benefit.

The rank of students leaving the college is determined by the certificate of the Principal which is granted with reference to the industry, proficiency, and general good behaviour of the students.

Such rank to take effect only in the event of the students proceeding to India within six months after they are so ranked, whether they proceed *via* Egypt or the Cape of Good Hope.

Conditions and Qualifications for a Candidate.

1. No candidate can be admitted under the age of fourteen, or above the age of eighteen years.

2. No person can be admitted who has been dismissed, or obliged to retire, from the Army or Navy, the Royal Military College at Sandhurst, the Royal Military Academy at Woolwich, or from any other public institution.

3. Every candidate must produce a certificate of his birth taken from the parish register, and signed by the minister, and countersigned by the church wardens; or, if born in Scotland, by the sessions clerk and two elders, accompanied by a declaration from his father, mother, or nearest of kin, the forms of which may be had at the Cadet office in the Military Department. 4. No candidate will be admitted without a certificate that he has had the small-pox, or has been vaccinated; nor without a certificate, in the prescribed form, to be given by two practising surgeons, that he has no mental or bodily defect whatever to disqualify him for military service.

5. Every candidate must produce a certificate of good conduct from the master under whom he has last studied.

6. Every candidate must deliver the names and addresses of two persons residing in London, or its vicinity, who engage to receive him if he shall be dismissed from the seminary, or removed from sickness or any other cause.

He is also required to construe and parse Cæsar's Commentaries correctly. 8. The qualifications mentioned in the last article are all that are absolutely requisite for the admission of a cadet into the Military Seminary. Parents and guardians are however informed, that it will be of great advantage to a cadet in his future studies at this establishment if, before being admitted, he make himself well acquainted with the following portions of the fourth edition of Cape's "Course of Mathematics," in the order in which they are given below, viz.

1. Algebra. Part I.—2. Geometry. Chaps. I. II. III. and VII.—3. The use of Logarithms.—4. Trigonometry Chaps I. II. and III.—5. Statics. (Chaps. I. III and IV.—6. Dynamics. Chaps. I. II. III. IV. and V.—7. Hydrostatics and Hydrodynamics.

It is also very desirable that a cadet on joining the Seminary be able to draw with facility in pencil, and shade with Indian ink.

9 Every cadet upon his admission is considered a *Probationary* pupil for the first six months, at the end of which period the public examiner will be required to report to the military committee on probability of the cadet being able to pass for the artillery or infantry in the required period four Terms. Should this appear improbable, either from want of talent or diligence, the cadet will then be returned to his friends.

PAYMENTS, &c—10 The parents or guardians of the gentlemen cadet are required to pay £50 per term (of which there are two in a year) towards defraying the expense of his board, lodging, and education, also an entrance subscription of £2. 2s. to the public library; which payments include every charge except for uniform clothes, books, and pocket-money, as hereafter specified.

11. The Payment of the fixed charges for each term is to be made in advance; and the payment for clothes, pocket-money, and books for the preceding term, is to be made previous to the cadet's return to the Seminary.

Notices to Parents and Guardians.

The friends of every cadet are hereby informed, that provision being made for furnishing him with every requisite, he cannot really want a supply of money to be placed at his disposal while at the seminary; and if they do notwithstanding think proper to furnish him with money, they put it in his power to commit irregularities, which must always retard his studies, and may eventually lead to his removal from the institution.

The parents and friends are further particularly desired not to attend to any application from the cadet for money, under the pretence of his having incurred any debts at Groydon, or elsewhere, or for the purpose of subscribing to the public charities, or any other pretence whatever.

It having become known that cadets have been in the habit of writing to their friends for money, under the pretence that there were so many stoppages from their weekly allowances that they had scarcely any money left, the Committee have ascertained that these stoppages have arisen, not only from wilful and wanton destruction of public property, but in a considerable degree from the postage of letters, and the carriage of parcels addressed to the cadets. It has in consequence been ordered, that no letter or parcel shall be admitted into the seminary unless the postage or a carriage of such letter or parcel shall have been previously fully paid for by the person sending the same. It has also been ordered that every parcel shall be opened in the presence of one of the orderly officers and the cadet to whom it is sent; that should it contain wine, or any thing prohibited in the regulations, the parcel, upon the first offence, will be returned to the person sending the same; and that upon the second offence, the cadet will be ordered home, and will not be re-admitted until a written apology has been sent to the Committee by the person who has committed a breach of this regulation.

Extract from the Standing Regulations of the Seminary.

"No professor, master, or other person in the institution, shall receive from the cadet, or the parents or friends of any cadet, any pecuniary present or consideration, on any pretence whatever."

MEMORANDA.

The gentlemen cadets educated at the Military Seminary are eligible for the corps of engineers, artillery, and infantry. Admission to the two first of these branches, viz. the engineers and artillery, is only to be obtained by these cadets, none others being eligible. Those who are most distinguished are selected for the engineers, according to the vacancies in that branch. Those immediately following in order of succession are promoted to the corps of horse and foot artillery.

Those cadets for whom there is no room in the engineers, but who are reported to have attained to a high degree of qualification, receive honorary certificates, and their names are announced to the governments in India, and published in general orders to the army, as meriting particular notice. They have the privilege of choosing the presidency in India to which they shall be stationed. The cadets not appointed to the engineers or artillery are, when reported qualified, posted to the infantry, and rank together according to the rank which they obtained at the seminary.

The gentlemen cadets may pass through the seminary as rapidly as their attainments and qualifications will enable them to pass after a year's residence, provided that they are of the age of sixteen years on or before the day of their final examination. Their stay at the institution is limited to four terms; and all the time passed by them at the institution after they attain the age of sixteen counts as so much time passed in India in calculating their period of service for retiring pensions on full pay.

PERSONS WHO MAY BE NOMINATED DIRECT CADETS.

A candidate must have attained the age of sixteen years. He is not eligible to be appointed a cadet after having attained the age of twenty-two years, unless he shall have been, for the space of one year at least, a commissioned officer in Her Majesty's Service, or in the Militia or Fencible Corps when embodied, and hath been called into actual service, or shall have been in the Company of Cadets of the Royal Regiment of Artillery. Such persons are eligible for the appointment of cadet in the Company's service, provided their age does not exceed twenty-five years. [A commission in the Guernsey Militia, or in any other corps similarly circumstanced is not a qualification. (Resolution of Court, 3rd April, 1844.)]

A candidate who has been so employed must produce its commission, together with a certificate from the War Office or Commanding Officer of his Regiment, of his having actually joined and done duty with the regiment for the full term of one year and upwards; and that he was neither dismissed nor resigned his regiment in consequence of any misconduct.

The examination of the candidates will take place before the Board of Examiners to be convened for that purpose at the Military Seminary at Addiscombe, near Croydon.

If the candidate has been confirmed as a member of the Church of England, he will be required to make a declaration to that effect. AFGHANISTAN.

Doer MAHMOOD KHAN, one of the Brothers of FUTTER KHAN, the celebrated Vizier, of MAHMOOD, and chief of the *Barickzay* Clan, the most powerful in Afghanistan, had for some years ruled this country previous to the *Restoration* of SHAH SOOJAN out of MONK in 1838. On the death of this Prince, Doer MAHMOOD again assumed the reins of Government which he still holds.

On the base and cruel murder of FUTTER KHAN by MAHMOOD at the instigation of FAJIB KHAN, his brother revolted from their allegiance under the guidance of Azeem Khan, the Governor of Cashmere, and drove MAHMOOD and his son from Cabul. Azeem Khan in the first instance offered the vacant throne to Shah SOOJAN, (considered the legitimate King by the British Government,) but when urged by some personal slight, withdrew his support, and placed in his room, EROOH a Brother of SOOJAN, who was content to hold the throne without the power of royalty. On Azeem Khan's death, his Brothers, dissatisfied with their position, conspired against his son, HUSEIN GOLLAN KHAN, and seizing his person, by threats of blowing him from a gun, induced his mother to deliver up the remains of Azeem Khan's immense wealth. EROOH's son was killed in these

disputes and he himself alarmed by these scenes of violence fled to Lahore. Dost Mahomed, the most talented of the Brothers, then took possession of the throne and became *de facto* King of CABUL. DOST DIL KHAN, supported by four Brothers, carried off about half a million sterling of AHER KHAN'S money, and seated himself in CANDAHAR, as an independent Chieftain. He and one of his Brothers are dead. CANDAHAR is at present lately ruled by GOWAN DIL KHAN, assisted by his two surviving Brothers, RUMAH DIL and DHER DIL.

KINGDOM OF OODE.

The family of the princes of Oode are descended from MEER MAHOMMED AMER, of a noble family in Persia, who came to India in the reign of BAHADOUR SHAH, and was received into the Imperial service, under the name of SAADAT KHAN. He was appointed to the Government of Oode in 1719 on the accession of MAHOMMED SHAH to the throne of Delhi. He had no son, and was, therefore, succeeded by his nephew and son-in-law, MUMTAZ ALI KHAN, who took the title of SORNER JUNG. He was succeeded by SAJA OOL DOWLA, who was again succeeded by ASOPH-UD-DOWLA. On the death of ASOPH-UD-DOWLA without any male issue, his spurious son, VIZIR ALI, assumed the reins of government, but his illegitimacy being discovered, he was after a reign of four months deposed, and SAADAT ALI KHAN, the brother of ASOPH-UD-DOWLA, ascended the throne on the 21st of January 1786. He died in 1814 and was succeeded by his son CHAKR UD DEEN HYDER, who relinquished the title of Nawab, in 1819, and assumed that of King, he died in 1827 and was succeeded by his son SHAH ZOWAN, who assumed the titles of "His Majesty ABOO NUSSEH, KNOTAB-OOD D-DEEN, SOUVAN JAH, SULTAN ADIL NOUSHERWAN ZEMAN NUSSEH OOD DREN, HYDER SHAHAN-BADSHA CHAKR, KHOOB-OOLA MOOLUK A-HOO SUT RAN NOO A-HOO." This prince died in 1847 and was succeeded by his uncle, NUSSEH-OOD-DOWLA, who assumed the title of "His Majesty ABOO PUTTY MOHEN-OD-DREN SULTANA ZEMAN MOHAMMAD ALI SHAH BADEMA-OODE," who died in February 1847. His son succeeded him under the title of "ABOOL MANOOS NAIR OOD-DREN SIKENDER JAH BAHSHAH ADIL KYBER ZAMAN SULTAN AULAM MAHOMED WAJID ALI SHAH BAHSHAH OODE."

KINGDOM OF AVA OR BURMAH.

The family name of the (said to be) deposed King of Burmah, or that given to him by his Grandfather, is Waung Khaung, but it is not considered respectful to mention this name having obtained as an appanage, and held until he assumed the throne the rich district of Tharawadi, which contains the principal teak forests in the country, he was always styled Tharawadi, Mon-tha, or Prince of Tharawadi. He was born on Wednesday the 6th of September 1766, and he is therefore now (1st January 1941) in his 59th year. His father was the Heir apparent to the throne when Colonel Symes visited Amarapura, and whom that officer calls 'Engy Trecken, more properly, Aun ya-thakken, or Aun ya-Meng, Lord or Prince of the Eastern House. His Grandfather was Colonel Symes's Minderace, more properly Meng-dara-gyee, the Great King of Righteousness, one of the titles borne by the Kings of Burmah; but his subjects now refer to him as Phod-gyee, the great royal Grandfather, or Badoun Thakken, the Lord of Badoun, the town which he had held before he came to the throne. He died on the 6th June 1819 and was succeeded by the present King's Elder Brother once known as Tan-ga-meng-tha, Prince of Tsagan, with the family name of Waung Teen, the same who engaged in war with the British Government, and who was dethroned by the present monarch in the month of April 1837.

In June 1837 the deposed King deserted his Brother's Capital of Ava which has now become a ruin, and proceeded sixty miles to the northward, with the ostensible object of building a new city there but in reality for the purpose of escaping from the British resident, for on the withdrawal of that officer, the King returned, and established himself in his Grandfather's city of Amarapura, which is now again the Capital of the country.

By his principal Prince he has a grown-up son and daughter the former now styled Tsungdweng yuang Meng-tha Prince of Tsungdweng yuang, and the latter highly skilled in Burmese science, particularly astrology. By his numerous inferior Queens he has several other children the principal of whom is a bold, spirited character, formerly named Tait-tong-gyee, but since his father's accession to the throne styled, from the town the revenues of which he enjoys, Pye Meng-tha or Prince of Proma. Besides him and the King's Uncle, the Philosopher Prince of Mekkhara, the Lhwottawor grand council of the kingdom now consists of four Woongyees, two of whom are, Maung Shwe-za, who was Governor of Rangoon during Major Ganning's mission in 1811-12 and Maung Daik-kyee, who held the same office when Colonel Benson was deputed to the Court of Ava in 1838.

Shortly after the present king seized the throne, he put to death the late Monarch's only son, the Tsakya Meng, his principal Queen, her Brother Meng-tha-gyee, or the great Prince, and most of the ministers and Chief officers of the late Government. The life of the late Monarch however, has been spared and he is not ill treated excepting in being kept as a state prisoner. The country is stated to be in a very unsettled state, and there is now no Burmese officer of any rank or authority to the northward of the Capital. Every town and almost village has its own petty governor independent of all interference excepting from the Court itself. Commercial speculations also are hazardous particularly as the present King has endeavoured to destroy his principal sea port town of Rangoon, where British subjects are now not sure of protection and freedom from official exactions and molestation, and it is very important that it should be generally known, that the Government of India declined to interfere when a complaint was submitted to it by a British Commander of all arms at Rangoon. Although the relations of the British Government with the present King continue in an unsatisfactory state and no British Officer resides in Burmah, there is no ground for supposing that he entertains the smallest idea of risking a war with us. On the contrary, strong hopes may now be entertained as two of the most violent of the war party, the King's Son Tait-tong-bhyn, and the Rye-wade Woongyee, have been recently carried off by cholera, that the convenience and advantage of re-establishing amicable relations with the British Government will be acknowledged by the King of Burmah.

The Burmese may be considered as a fair representation of the state and title of the Kings of Burmah—
 "Efficient glorious and exalted Majesty the Lord of the Tahadins, King of Elephants, Master of many White Elephants, and Proprietor of Mines of Gold, Silver, Rubies, Amber and the Noble Serpentine, Sovereign of the Empires of Transparada and Paurpada and other great Empires and Countries, and of all the Umbrella wearing Chief, the Supporter of Religion, the Son descended Monarch, Arbitrator of Life, and great King of Righteousness, who bears the honorary name (in full) of the Illustrations in the three worlds, the King of Kings, possessor of boundless dominion and supreme wisdom, and great King of Righteousness."

Native Governments.

His dominions consist of Burmah Proper, the old kingdoms of Toung-nu and the Shan States and Districts of Kale, Thaingthau, Khamti, Mogung, Bamo, Moulmya, Monai, Main Lou, Taung-ban, Thauai, Kaitum, Main Meia, Main Loang-gyi, Kyau Young-gyi, Kyastoun, Kyau Khyang, Thibo, Thopa-xy, Monoh, Kvaing-toung, Kyau-tham, Nyang-yu, Léka, Maik me, Mohe, Main Fyn, Main Fan, Main Fan, Main Kiang, Nuung-gau, Thigt Abel, Yau-tyuk, Main Tsat, Eile, &c., all of which States and districts however are differently named, more or less, by the Shans themselves.

KINGDOM OF SIAM

The King's usual titles are, "The God Buddh who dwells over every head, the Lord of life and master of the Palace". His dominions consist of Siam Proper, of the Shan States of Ch'ing Mai, Lamp'hun, Lak'hon, Meuang Nan, Meuang Fang, Lan ch'ang, Luang Phusang, Ch'ing Sen, Ch'ing Rai, and others, of part of the old kingdom of Cambodia, and of the Malayan States of Quana and Patani.

The present King is the same person whom Mr Crawford saw as Prince Krom Chai all Bangkok in the year 1822. He was the eldest son by an inferior wife of the late King, whom he succeeded on the 21st July 1824, with the general consent of the country, and he is now about 50 years of age. His successor, it is supposed, will be his brother *Chao Fa* "Lord of Heaven" the eldest son of the late King by his principal Queen. The other members of the Royal family of Siam are said to amount to nearly three thousand.

KINGDOM OF NEPAUL

The Ex-Maharaja RAJ RAJENDRA VIKRAM SAH, King of Nepul, succeeded his father at the early age of two years, he is the son of GIRIVAN JUDDHA VIKRAM SAH, the son of PRITHWI PAL SAH, the successor of RUN BAHADUR the son of SING PANTAUS, the son of PURTHI NARBAIN, the Goorkha conqueror of Nepaul, who subdued it in 1768.

The death of the Ex-Rajah's father is one of those, which Princes whose caprice to the law, have met with GIRIVAN JUDDHA VIKRAM SAH having caused a pogoda, like that of Jaggerath, to be erected, ordered similar obsequies to be paid to it. This excited dissatisfaction amongst his people, and one of his brothers took advantage of this opportunity of revenging the death of another brother who had been put to death by the eradication of his eyes, by order of the Rajah. He accordingly went to the Court, and pretending to remonstrate with him on the injustice of his late order, struck him with his sabre. He was however, immediately killed by the Canny Bhimsen who was present, and the infant prince was placed on the *Musnud*. On the night of the same day, three hundred persons, on whom any suspicion fell, were, it is supposed, put to death by the Canny's order. Nepaul is tributary to China from the year 1792. In May 1847, Maharaja RAJ RAJENDRA VIKRAM SAH was deposed, and his son elevated to the Gaddi under the title of "Maharaja DHEKAS SOORINDER VIKRAM SHAN BAHADUR SUMMERSET JUNG."

NIZAM OF HYDRABAD.

His Highness NAWAB ASOPH JAH MOOZUFFIER UL MOOMALIK NIZAMUL MOULK NIZAMOOD DOWLAT NAWAB WESA FORKUNDEN ALI KHAN BAHADUR FATEH JUNG, Nizam of Hyderabad ascended the Musnud on the 24th of May 1829. Is the son and successor of MUHAMMAD JAH the eldest of the eight sons of NIZAM ALI KHAN, the younger brother of SALABUT JUNG, the uncle and successor of MOOZUFFIER JUNG, the nephew and successor of NAZIR JUNG, the second son of NIZAM UL MOOLK, who obtained the Sobqudari of the Deccan in 1717, in the reign of Ruffeul Dirjel.

Before the formation of a treaty of perpetual alliance with the English, on the 12th October 1800, the subsidiary of the Deccan had suffered continual disturbance. When Asoph Jah Nizam ul moolk returned from Delhi, in 1749, he fought in 1741, his son NAZIR JUNG, who had rebelled against him. Nizam-ul-moolk died in 1748, from which time, to the year 1763, a period of 15 years, three princes had ascended the Musnud, and were successively assassinated. The family of Scindia are Sudias, of the tribe of Kumbhee, or cultivators. Ramjee was employed by Peshwa Bajerow, as the bearer of his slippers, from which situation he rose to eminence, and when Bajerow having succeeded his father, Bismath Row, in the office of Peshwa in May 1720, came into Malwa in 1731, Ramjee was a Marhatta chieftain of high rank, so that the Sovereign authority of the Scindia family cannot have existed much more than one hundred years.

The settlement of the Jatts (of which tribe the Rajah of Bhurt-pore is), in the Doab of the Ganges and Jumna, is dated in 1700, when they migrated from the banks of the Indus. Dattaj Aurangzeb's son Bajerow towards the Deccan, CHURAJAH, the Jatt, pillaged the baggage of the Army, and with part of the spoil beset the fortress of Bhurt-pore. The present prince, like many of his predecessors, is not legitimately descended, being the son of a female slave of the name of Sahob Romi. When a Rajah has no son, he purchases females, and the boy begotten on any of them, is adopted by the Rajah and the Family Rauce.

His Highness Maharaja TOKOBA Holkar. He is a youth of about seventeen years of age, and succeeded the late Rajah Holkar, in October 1843. His installation took place on the 27th June 1844. The Holkar family are of the Dhongur or shepherd tribe. The derivation of the name Holkar, or mots properly, Halkar, is from Hall a village, and Kar, an inhabitant. Moulhar Rao I. was the first prince of the Holkar family; and the time when he obtained any local authority was in 1728, the district of Indore was assigned to him in 1738. He had only one son, Kundi Row, who died in 1754, many years previous to his father's death, and left an only son Muller Row. He also died after a reign of nine months after the death of Moulhar Row. The original family being thus extinct, AMLIYA Bai ejected TUKAJEE Holkar to the principality. He had four sons, Cast Row and Moulhar Row by his wife, and Jeevont Row and Rajde by his mistress.

His Highness Maharaja TUKET SING, Bahadour, succeeded Maharaja MAUN SINGH, Rajah of Joudhpoor or Marwar. He is of the tribe of Rhatore Rajpoots.

The earliest Rajah of this country on record was Maharaja Jeevont Singh, who having died near Cabul, in 1581, Aurungzebe, one of whose best generals the Maharaja was, gave orders forcibly to convert his children. The family were thus compelled to take refuge in the hills and woods, and on the death of Aurungzebe, regained their former possession. AJIT SINGH, the grand-son of Jeevont Singh, having rebelled

RAJAH OF BOGHELKUND

RAJAH OF BHOONDDE

His Highness Maha Rao RAJAH RAM SINGH BHAADOUR, Rajah of Bhoondde, is of the Hara tribe. * During the retreat of Colonel Munson, in 1804, the Bhoondde Rajah greatly assisted him in his distress, and his conduct has been uniformly friendly to the English, yet, at the peace of 1805, he was abandoned by the Government to the vengeance of the Mahrattas. * *Hamilton, page 17.*

RAJAH OF OUDYEPPORE

His Highness MAHARAJA SURROOP SING, Rajah of Oudypore.

The family of the princes of Oudypore, belong to the Seodhya tribe of Rajpoots, which is considered the most noble of all the tribes. The family is also regarded highly by the Mahomedans in consequence of a tradition, that he is descended, in the female line, from the celebrated Nounshirvan who was King of Persia at the birth of Mahomed, and thus to have in that line a common origin with the descendants of Hussein, the son of Ali.

RAJAH OF BIKANERE

3 It is left optional with Officers to establish Bands in Native Regiments, in which they do not at present exist, but those now established, and any which may hereafter be established, are to be maintained under these Regulations.

4 Every Officer borne on the Rolls of a Regiment, whether on staff employ, on local leave, or on Furlough, (Medical Certificate to Europe alone excepted,) is to contribute the following amount to the maintenance of the Band of his Regiment viz. —A donation of 30 (thirty) days' net pay of Regimental Rank on appointment and a monthly subscription, of 2 days' net pay of regimental rank in support of the Band expenses.

Regimental Savings' Banks.

No 302 of 1850.

**GENERAL ORDERS BY THE HON'BLE THE PRESIDENT OF THE
COUNCIL OF INDIA IN COUNCIL.**

FORT WILLIAM, THE 23RD MAY 1850.

The following Rules to amalgamate Regimental Savings' Banks with the Government Savings' Bank, at each of the Presidencies of Bengal, Fort St. George and Bombay, having been sanctioned by the Hon'ble the Court of Directors, in their military letter to the Government of India, No. 6, of the 19th March 1850, are promulgated for general information, and are to have immediate effect at the three Presidencies.

1 Regimental Savings' Banks having been established in every Regiment and Depot, of H. M.'s troops, whether serving in Great Britain or abroad, under royal warrant, dated 11th October 1843, a copy of which is subjoined, and certain rules connected therewith having been promulgated by his excellency the commander-in-chief in India, in General Order to H. M.'s Troops, dated 27th March 1846, it is expedient that the Regimental Savings' Banks attached to H. M.'s Regiments in the Indian Presidencies, shall hereafter work as Branch Banks of the Government Savings' Banks established at Calcutta, Madras and Bombay, according as the Regiments may be serving in each of the three Presidencies.

2 Captains or officers commanding troops or companies, therefore, are authorized to receive sums that non-commissioned officers and soldiers under their command may from time to time desire to deposit.

3. On soldiers' deposits reaching company's rupees 500, (five hundred) the amount is to be invested in 4 per cent. treasury notes, in the manner laid down in Government General Orders, dated 10th October 1843, No 389.

4 The receiving officers are to transfer all monies received in deposit to the regimental pay masters who will account for the same to the pay master Queen's Troops at the Presidency by furnishing him with a statement exhibiting the name, rank, regimental number and amount of each depositor, and the pay master to the Queen's Troops will deduct all such receipts in regimental pay-masters' treasuries, from their monthly requirement for regimental disbursements. The pay master to the Queen's Troops will transmit a consolidated detailed statement of the deposit of each regiment to the Government Savings' Bank. From this statement credit will be passed in the Government Savings' Bank account to the several parties depositing. The Government Savings' Bank will keep a separate Ledger for the deposits of each regiment.

5 Interest at 4 per cent per annum on soldiers' deposits, referred to in the preceding rule, will be allowed from the 1st of the month in which the deposits are actually made in the Regimental Savings' Bank and up to the last day of the month preceding that in which they shall be withdrawn. No Interest is allowed on fractional parts of a rupee.

6 In the event of withdrawal from Regimental Savings' Banks, the refund is to be made under the Provisions of the Royal Warrant, referred to, from the Treasury of the regimental Pay master. Every regimental Pay master will be held responsible for any error of calculation of Interest, and, with a view to his security, he is required to send intimation by the same day's post in which he refunds a deposit with Interest, to the Secretary to the Government Savings Bank, accompanied by a statement of the name of the withdrawer, his regimental rank and number, the amount Principal and Interest paid, all distinctly shewn in separate columns. The Secretary on receipt of this intimation, will, by the same day's post, acknowledge the receipt of the advice, pointing out error for recovery, should any occur.

7 Regimental pay masters are required to furnish the pay master Queen's Troops at the Presidency with a monthly consolidated statement of the withdrawals during the month, immediately after the close of each month, and the pay master Queen's Troops will add at foot of the monthly statement he is required by Rule IV to furnish to the Government Savings' Bank in detail the month's withdrawals, and he will allow regimental pay masters in account current with him credit for the aggregate of the amount withdrawn.

8 The year of account opens on the 1st May and closes 30th April. The Government Savings' Bank closes its accounts on the 30th April of every year, and the interest due at that period will be either paid to the depositor or carried to account thenceforward to accumulate at compound yearly interest.

9 Commanding Officers of Her Majesty's regiments will send to the Secretary to the Government Savings Bank an account current of each depositor from their regimental

Regimental Savings' Banks.

Ledgers closing yearly on the 30th April, as soon after the balance shall have been carried forward into the ledger of the succeeding year as practicable, the Government Savings' Bank will then apply the necessary check, and return the account current with a certificate of accuracy.

10. In order that a soldier on quitting India may not be deprived of the advantage of continuous interest upon his accumulations, after the payment by the East India Company of interest on his deposits has ceased by his removal from the Indian Presidencies, all deposits in the Savings' Bank belonging to men of Her Majesty's service, who may be returning home with their regiment, will be paid over to the pay master to the Queen's Troops, to be included by him in separate remittance rolls, in the manner laid down in Government General Orders, dated 16th October 1848, No. 389, so that the soldier may receive interest on his accumulations from his regimental Savings' Bank from the date following that on which payment has ceased in India, or any other date that the secretary at War may determine, as contemplated in War Office letter, extract para 7 annexed, dated 18th November 1843 to the Secretary to the Board of Control, copy whereof was received in the Hon'ble the Court of Directors' military Letter No. 10, of 1844 to the Governor General of India in Council.

11. The deposits and effects of soldiers dying in India and leaving orphans who are minors, are to be invested in the names of the Officer Commanding the regiment, the Officer second in command and the adjutant of the regiment, each for the time being as trustees for the orphans. Upon the return of a regiment to England, the balances due to orphan minors who proceed home with the regiment are to be transferred in the same manner as soldiers' deposits, and the balances due to orphan minors who remain in India are to be transferred from the Regimental to the Government Savings' Bank to be dealt with according to the rules of the Bank applicable to minors.

12. With exception to the modification necessary to the incorporating of the Rules of Regimental Savings' Banks with those of the Government Savings' Bank, the provisions of the Royal Warrant dated 11th October 1843, for establishing and Regulating Regimental Savings' Banks are to have full force and effect in all respects.

13. The spirit of the preceding rules is alike applicable to the Company's Troops.

WARRANT FOR ESTABLISHING AND REGULATING REGIMENTAL SAVINGS BANKS, VICTORIA R

Dated 11th October, 1843

WHEREAS it has been represented to Us that it is expedient to afford to the non-commissioned officers and soldiers of Our army facilities for depositing their savings. Our will and pleasure is, that there be established in every Regiment and Depot of Our Regular Cavalry and Infantry a Regimental Savings' Bank for the safe custody and increase of such savings, and that the following regulations shall be observed and obeyed wherever Our Troops may be serving the territorial possessions of the East India Company alone (excepted) as Our sole authority for the establishment thereof viz:—

I. That officers commanding troops and companies shall receive as public money, to be applied to the payment of those public services which it is their duty to defray, such sums as the non-commissioned officers and soldiers under their command may from time to time desire, and be entitled, to deposit in the Savings' Bank of the regiment.

II. That the maximum of each soldier's deposit shall be limited to £10 in any one year, and to 200l in the whole.

III. That the rate of interest upon deposits shall be at 15 per cent per annum, but that no interest shall be allowed upon any other parts of a pound sterling than 8d and 1/4d, nor upon any sums that have not remained in deposit for at least one month, to be reckoned from the last monthly muster-day, and that interest shall only be allowed upon sums withdrawn up to the muster-day preceeding the day the deposit is withdrawn, unless such day shall be the muster-day.

Interest upon all sums in deposit shall be added to the principal quarterly, and shall thereafterward bear interest.

IV. That when a soldier shall be desirous of withdrawing the whole or any part of his deposit, he shall give at least seven days' notice to the captain or officer commanding the troop or company to which he belongs in order that the necessary arrangements may be made for repayment of the amount at the next day of monthly muster; but if such captain or officer commanding shall be satisfied of the urgency of the case, and that the immediate withdrawal of the deposit would be for the advantage of the soldier, he may direct payment to be forthwith made.

Whenever the officer commanding the troop or company shall have grounds for believing that the soldier intends to make an improper use of his money, he will be permitted to withhold the privilege of withdrawing the deposit until the Commanding Officer of the regiment shall determine whether it should be then issued or not, and should the officer Commanding deem it essential to the discipline of the regiment to withhold from a soldier the privilege of withdrawing his deposits, he shall report specially to the Commander-in-Chief and to the Secretary at War the circumstances under which he has felt himself compelled to exercise this power.

V. That all monies deposited by the soldier in the Regimental Savings' Bank shall be held strictly in trust for his own use and benefit, and shall on no account be transferable to any third party, either by endorsement, conveyance, or otherwise, and shall not be affected by any debts contracted by him, nor be made available for any purpose whatever, except under his own order, signified to the officer commanding the

Regimental Savings' Banks.

troop or company and such monies shall, if possible, be paid to the soldier personally and in all cases his receipt shall be obtained and shall be attached to the Troop or Company Savings' Bank Ledger.

VI That upon the discharge of a soldier, his deposits may remain at interest in the Regimental Savings' Bank for a period not exceeding six months, after which time interest shall cease, but if required by the soldier, the principal may be retained without interest for a longer period for security.

VII That at the death of a soldier interest on his deposits shall cease from the muster day next after his death, and the amount of his deposits with the interest accumulated thereon, shall be added to his other effects, and be reported to Our Secretary at War, to be disposed of in the usual manner to the legal representative of the deceased, as prescribed in Our Articles of War.

VIII That a soldier convicted by a Court Martial of desertion, or recorded by a Board of Officers in the usual manner as a deserter, shall forfeit to the public all monies he may have in the Regimental Savings' Bank and such forfeiture shall only be remitted by Our authority, signified by Our Secretary at War.

IX That to prevent parties not in military employ from availing themselves of the advantages afforded by these Banks, as well as to prevent larger sums from being accumulated at interest for any one soldier than is permitted by this Warrant, no non-commissioned officer or soldier is, on any pretence whatever, to deposit in his own name the money of another person whether a soldier or not, and in case any soldier shall so deposit the money of another person, we hereby direct that, in addition to any punishment which a Court Martial may award for the fraud thus committed, all sums so deposited shall be forfeited to the public and one half of the amount, not exceeding 5*l*, shall be allowed to the informant.

X That a non-commissioned officer shall be selected by the officer commanding to act as clerk to the Regimental Savings' Bank and that such clerk shall be allowed for keeping the accounts of the depositors such compensation as Our Secretary at War shall direct.

XI That instructions as to the mode of accounting for the deposits made under this warrant be issued, from time to time, by Our Secretary at War.

XII That during active operations in the field or whenever circumstances may render it impracticable to attend to the details of the Savings' Banks, the General Officer in command may direct the temporary suspension of this warrant, but all sums then actually in deposit under the provisions of this warrant shall bear interest in the same manner as if the warrant had not been suspended.

XIII Such special deviations from the foregoing rules and regulations as may appear advisable to Us will be directed by Our Secretary at War with whom alone it rests to interpret the true intent and meaning of any passage in this warrant upon which a doubt may arise.

Given at Our Court at Windsor, this 11th day of October, 1841, in the Seventh year of Our Reign.

By Her Majesty's Command,

H. HARDINGE

General Military Fund,

FOR THE BENEFIT OF

WIDOWS AND CHILDREN OF DECEASED OFFICERS

In Her Majesty's Service in India

ESTABLISHED IN 1850.

Under the protection and countenance of the Most Noble the Marquis of Hastings, commander-in-chief in India, the above named Fund was established in the year 1820, for the purpose of sending home, in comfort and respectability, the families of deceased officers in Her Majesty's service in India, who may have been left destitute, and of preventing the painful and degrading practice of appealing to the public for subscriptions on such occasions, and also of providing relief in such cases as may require it, until they can be conveniently sent home.

His Excellency General Viscount Gough, G.C.B., commander-in-chief in India, in the year 1845, with reference to several cases arising out of the death of officers on the voyage from India to England, leaving their widows and children in circumstances of great distress, and with advertence also to the manifest justice of allowing all widows and children of officers, being subscribers to the Fund, who may die at the Cape of Good Hope, the Mauritius, New South Wales, or Australia, the benefits of the Military Fund, directed the introduction of Rules 21 and 22 after they had been proposed for the consideration of the whole body of subscribers, and carried by a large majority.

It having since been found advisable to make some alterations and additions to the rules and regulations in reference to the state of the Fund and the generally expressed wish of the subscribers, His Excellency General Sir William Gomm, K.C.B., assembled a special Board of Officers at Simla in June 1851, for this purpose, and directed the minute of their proceedings to be published and circulated for the consideration of the body of subscribers serving in India, who almost unanimously agreed to the alterations proposed.

The following Code framed in accordance with the Board's recommendation, and the suggestions of the subscribers has been approved by His Excellency General Sir William Gomm, K.C.B., who is pleased to become patron to the Institution.

Rule 6th—That in order to obviate the difficulties which would arise from the occasional remote situations of Her Majesty's corps serving under the several presidencies, the Most Noble the Governor General in Council was pleased to order and direct, when the Fund was established, that bills may be granted to the pay master of Her Majesty's regiments by the governments of Madras and Bombay on the government of Bengal, payable at sight to the agent or agents of the Queen's Military Fund, acting for the committee of general management, thereby avoiding commission, double agency, and risks of exchange.

2 Lieutenants, or 1 lieutenant and 1 quarter master

Military Fund

Rule 10th —As it may often happen that officers die while the corps they belong to is stationed by itself, or remotely detached, it shall be in the power of every commanding officer of a regiment so situated, to assemble a committee of any five officers, being subscribers to hear and decide upon the case of any widows and children so become destitute, and seeking relief from this Fund. It shall also be competent for the commander in chief at either presidency to assemble a special committee to report on the case of any lady, who may become a widow, whilst the regiment to which her husband belonged shall be at another distant station, or on service beyond sea.

Rule 11th —That such station, regimental, or special committees, as the case shall be, having duly examined into the circumstances of the party seeking relief, shall report their opinion on, and recommend the amount to be granted, whether for passage money or maintenance, strictly in conformity with regulations annexed. The opinion and recommendation of such committees shall be forwarded to the Honorary Secretary, army head quarters by the officers commanding the corps in which the casualty may have occurred, and the pay master of the regiment, under the above authority can at once advance to the widow the amount of "maintenance" awarded by the committee, reimbursing himself by a deduction from his next regimental remittance, or by drawing a bill on the Secretary. The residue of the award to be adjusted by the Secretary under the sanction of the general committee of management.

Rule 12th —The sub-committees at Madras and Bombay will, in cases of special awards in those presidencies, on satisfying themselves with the accuracy of the statements laid before them draw upon the Honorary Secretary, at army head quarters, for the amount which may be awarded. But in the final adjustment of the accounts of such sub-committee, the general committee will consider themselves bound to object to any sum, however trifling, which may be granted in excess of the rules laid down.

Rule 13th —The sub-committee will, on drawing for any sum on the Honorary Secretary in cases of special awards, transmit the report of the station committee, as well as their own opinion and explanation of the award, as a voucher, and they will afterwards, as soon as possible, transmit the proper receipts and certificates, showing that the money has been appropriated in the manner and for the purposes for which it was awarded.

Rule 14th —The object of this Fund being clearly confined to sending home families of deceased officers and with a view of preventing those painful appeals for assistance to the public, at once so humiliating to respectable individuals, and the Queen's service in India, it is earnestly hoped that all ranks of Staff and Regimental officers will support it.

Rule 15th —But to prevent doubts and misconceptions which might possibly arise hereafter, it is distinctly declared that no widow continuing to reside in this country after the death of her husband, can expect any provision or pension for herself or children from the fund further than is stated in the 8th Clause of the schedule of award. It is also declared, that no widow is entitled to passage money or allowance for travelling, unless she actually proceed to sea, or on her journey in the manner for which any allowance may have been drawn, and should she have received such allowance she will be required to refund, and further that no widow, under any circumstances, shall be entitled to any assistance from this fund, unless the application shall be made in the usual form within 6 months after the demise of her husband.

Rule 16th —Orphan children are eligible for the benefits of this fund, but awards for them must be specially made by a Station or sub-committee, and sanctioned by the commander in chief of the Presidency, who is requested to appoint some eligible person to take care of them, and provide a passage, &c. &c.

Rule 18th —That Commanders & officers of Her Majesty's regiments be requested to pay particular attention in causing the regular quarterly remittances to be made to the honorary secretary of the Queen's Military widows' Fund, acting for the committee of General management, army head quarters, who is requested from time to time to apprise commanding officers whenever any corps may fail in making such remittances.

Rule 19th —That no general rule or regulation of this Fund shall be altered, except recommended by the general committee, and approved by a majority of the subscribers.

Rule 20th —In taking the opinion of the regimental and staff officers of Her Majesty's forces in India, a very general wish was expressed and earned by a majority, that all widows of subscribers should have their passage to England &c. defrayed. As an officer ceases to be a subscriber on leaving India, all claims on the fund must in like manner cease from the same period, but an officer going to sea for the benefit of his health, being entitled to his Company's allowances, will be considered as a subscriber during his absence.

Military Fund

RULES REGARDING THE PERIODS ALLOWED TO OFFICERS AND OTHERS PROCEEDING TO JOIN THEIR REGIMENTS, &c.

Fort William, the 24th September 1853

The Most Noble the Governor General in Council is pleased to direct, that the following Rules shall be substituted for the regulations now in force, regarding the periods allowed to Officers and others ordered, or proceeding in ordinary course, from the Presidency to Stations, or from one Station to another, to join their Regiments or Staff appointments —

I One month of 30 days will be allowed for preparation in the following cases, *viz* —
 1st.—To Officers proceeding from the Presidency, or from one Station to another, to join or to do duty with Regiments, or on appointment to Staff or detached situations.

Rules for Officers proceeding to join.

2nd —To Officers on return from furlough to Europe, having to proceed from the Presidency to join Corps or Staff or detached appointments

3rd —To Officers who return to the Presidency from leave beyond Sea on Medical certificate, with the privilege of drawing Indian allowances for the time necessary for joining their Regiments or Stations.

4th —To Warrant Officers under any of the conditions above specified, or when promoted to the Warrant grade and posted to Magazines or stationary Departmental charges, at Stations other than those at which they may be serving

Also in each subsequent change of Station, by removal to another Magazine or stationary Departmental charge

5th —To European Non-Commissioned Officers or Soldiers, on being appointed to the Town Major's list, and directed to join a regiment or appointment at a Station other than that at which they may be serving, and on each subsequent change of Station, by removal to another Regiment or appointment

II The time allowed for journeys by water will vary as they may be performed on River Steamers or on common Boats

III 1st —The annexed Table, which is identical with that in Section VII

Pay Code of 1849, shows the time allowed for travelling in Pinnaces, Budgerows or Country Boats, from one River Station to another named therein, which lying on the route to be travelled in each case may be most convenient for embarkation and debarkation

2nd It is to be clearly understood, that Officers and others, proceeding upwards by water to Stations beyond Delhi or Meerut, will be allowed the time for proceeding by the Ganges to Gurmukteswar Ghat, and not by the Jumna, and the same rule applies to persons travelling from distant Stations downwards

3rd —The Ganges route will, in like manner, alone be allowed for in proceeding by water to any Station in the Doab which is not actually upon the Jumna

4th —Except under special orders arising from an emergency of the Service, Officers or others will not be allowed to rocken the route by water from one Station to another, the distances between which are marked in the annexed Table with the letter "A," as for instance from Agra to Cawnpore, or from Lucknow to Delhi. The time allowed in such cases will be only for the journey as performed by Land

IV 1st —When the journey or part of it is performed by Steamer, the actual time occupied in transit on board a Steamer from the Station of embarkation to that of debarkation will be allowed.

2nd —When in consequence of no Steamer being available at the place of embarkation, unavoidable detention may occur, the term of such detention will be allowed, in addition to the actual time of transit

3rd —In cases of Officers or others entitled to the month for preparation allowed by Rule I of this order, should that time be exceeded in consequence of no Steamer being available, it will be necessary to show that no avoidable delay has occurred, but that the first available opportunity has been taken advantage of

4th —In case of proceeding by Steamer, the time allowed both for transit and unavoidable detention is not to exceed the time granted for marches, with regular halts, according to the official book of routes and stages from the place of embarkation to that of debarkation, added to the unexpired portion (if any) of the month for preparation specified in Rule I of this order

V If on disembarking from Steamers or other boats, any portion of the journey remains to be prosecuted by land, 15 days from date of disembarkation will be allowed before commencing the land journey

VI The time allowed for journeys or portions of journeys by land will, in all cases, be regulated by the official book of routes and stages, one day in seven being considered a halting day

VII Time in excess of the periods specified in the foregoing Rules can be allowed only in case of Government or His Excellency the Commander-in-Chief being pleased to grant general leave to cover that excess

VIII As the Absentee Rules remain unaffected by the present order, an Officer who shall have proceeded to Sea on leave, under Medical certificate, with a right to full pay and allowances for two years from date of the Pilot's certificate of his having put to Sea, and who shall have returned before the expiry of his leave, will not, by obtaining leave under Rule VII of this Regulation, even under Medical certificate, secure his allowances for any time in excess of the unexpired portion of his leave to Sea, nor can he retain even his pay proper for any time in excess of 3 years' absence from duty on Medical certificate

IX When an Officer or other individual not described in the foregoing Rule VIII, who shall have enjoyed the month for preparation, shall exceed the time allowed under this General Order, and shall obtain leave to cover that excess on grounds other than Medical certificate, he will, from the expiration of 7 months from the date of his arrival at the Presidency, the month of preparation being included therein, forfeit all allowances, retaining only pay proper for the period of excess. If leave be not obtained, pay also will be forfeited

X Staff Officers of any Military Department, who, while in transit, are entitled to full Staff allowance, or Horse allowance, under the general Staff Regulations, will, on proceeding from one Station to another, unless expressly ordered to adopt a quicker mode of travelling, be allowed the time prescribed in the official book of routes and stages, with one halt in 7 days. They are however at liberty to adopt, at their own expense, any more expeditious means of conveyance.

Furlough Certificates.

XI. Whenever journeys may be performed, partly by land and partly by water, the above Rules for each mode of travelling will govern the time allowed for the several portions of the journey, whether to wards or from the Presidency.

XII. 1st — A declaration showing the route taken, and modes of travelling adopted, also the dates of embarkation and disembarkation at the commencement and end of the water route, and dates of prosecuting the journey, to be appended to his first pay-bill after joining by each Officer, or by Officers of departments on account of Warrant and Non-Commissioned Officers and Soldiers.

2nd Where detention from a Steamer not being available shall have arisen, a certificate signed by the Superintendent of Marine, if the detention occurred at the Presidency, or if elsewhere, signed by the Commander of a Government Steamer, or by the Agent or Commander of private Companies' Steamers, stating the extent of unavoidable detention and the date on which a passage was obtained, must be attached to the first pay-bill of Officers or others.

Subscribers paying donation by instalments pay interest at 8 per cent per annum upon all unpaid balances until the whole is liquidated.

ART. 12 Monthly subscriptions shall be made within four months after they become due, in default of which 8 per cent per annum will be charged on all arrears after that period.

It will be the duty of the secretary to forward a statement of his account to every subscriber, on his payments to the fund, whether subscription or donation, becoming one year in arrears.

In the event of payment, as above, being refused, the name will be struck off, if the party entered the service before subscription was compulsory.

Should this account not be furnished, subscribers will not be held liable for the payment of interest beyond the first year.

The secretary will also call on subscribers, who may fall into arrears for three months, for the amount of such arrears, and if unsuccessful in recovering them, lay the case before the directors for their orders.

ART. 13 All members marrying, and who may be desirous that their widows should possess claims to the eventual benefits of the fund, are required to inform the Secretary and Paymaster (if in India and the Agents if in Europe) of their marriage, and unless the payment of the additional donation be made within six months after such marriage, the subscribers will be required to pay the amount with interest at 8 per cent. per annum, calculated from date of marriage, and to furnish a health certificate as required by Art. 2, Clause 1st, and no claim for pension on the part of the widow of an officer not subscribing as a married member at the time of his decease, shall be admissible.

N B—A member marrying is required to furnish his marriage certificate, and to state his own and his wife's age.

An unmarried subscriber to the fund marrying a person who has borne him children, or with whom he may have been cohabiting, shall not be transferred to the married list, unless he furnishes a health certificate of the form laid down in the Regulations, and pays up the prescribed marriage donation and subscription, with interest, calculated half yearly at 8 per cent per annum, for five years, commencing in the rank he then held, and paying the difference through each successive rank he may have attained by Regimental promotion.

ART. 14. As is the case in the funds at Madras and Bombay, a minimum shall be established for each rank, and in the event of a member's contributions not having reached that minimum, a deduction shall be made from the sums otherwise receivable from the fund on account of equipment and income allowances, and from the widows' pension till the deficit be made good, such deduction being, as in the Bombay fund, according to the following scale:—

ART. 15. When an officer receives aid from the fund, the aggregate amount of such aid shall be deducted from the amount of his contributions in estimating his minimum.

ART. 16. Subscribers who may be prevented from drawing pay from a temporary cause over which they had no control, such as captivity, or furlough extended on medical certificate, shall during such period, be exempted from the payment of monthly subscription, without forfeiture of the rights of the subscription, but on the removal of such incapacity and upon the receipt of pay, the arrears are to be made good within six months, with interest at 8 per cent per annum for any time beyond that period. But if the incapacity to pay proceed from any other cause, dependent upon the choice or conduct of the individual, such as furlough extended on private affairs, or any penal suspension from rank and pay, not only shall the arrears so accumulated be paid up within the above term, but compound interest charged at 8 per cent per annum on the amount.

SECTION III—*Benefits derivable from the Bengal Military Fund.*

2nd. Such as are granted to widows of deceased subscribers

ART. 18. ART. 19. A subscriber of whatever rank who may proceed to Europe on sick certificate, and who may not be allowed passage-money from Government, shall be authorized to apply to the Military Fund for the sum of rupees 800 to defray that expense, provided his application shall be accompanied by a sincere and solemn declaration that he does not possess the sum of rupees 5,000, or property of any description to that amount, and also shall be entitled on his return to India to receive from the agents in England, the sum regulated for the outward passage,* on the

production of a declaration, that he neither possesses nor has, at any time, possessed £500 sterling (exclusive of pay) during the period he has been in receipt of English pay on Furlough.

All applications from subscribers for passage-money from the fund, whether proceeding to or returning from Europe, must be accompanied by a guarantee (Form No. VI) on the part of the Agents of the Ship or other respectable party, that they will be responsible for a moiety of the passage-money allowed by the fund, being returned, in case of death previous to the Pilot quitting the Vessel on which the claimant's passage may have been taken.

ART 20 A subscriber so proceeding to England on sick certificate, shall be authorized to apply for the further sum of rupees 300 for his equipment, his application being accompanied by a solemn and sincere declaration of his not being possessed of the sum of rupees 2,000, or property of any description to that amount, but no allowance will, in any case, be made for equipment to a subscriber returning to India.

N B.—The benefits held out in the two preceding articles should be applied for when claimable, and no claim will be admitted which is not preferred within 12 months from date of furlough.

The declaration to be renewed annually.

N B.—The possession of Company's rupees 1,500, or £150, precludes all claim to the above allowance.

ART. 22. It having, however, been deemed necessary to set limits to the claims for gratuitous passage-money, equipment allowance, and income to subscribers proceeding to England on sick certificate, no subscriber who has received the benefits he is entitled to at any one time shall receive a second indulgence until the expiration of eight years, reckoning from the renewal of Indian subscription.

A subscriber who shall have received these benefits, before he has served 8 years in India, will not be entitled to a second indulgence until he shall have been (exclusive of first Furlough) 16 years in the service.

ART. 23 Subscribers proceeding to England from any place not under the presidency of Bengal, shall be entitled to the personal benefits which have been above enumerated, provided they shall have complied with the local regulations, and shall make immediate communication of the circumstances to the Directors of the fund.

ART 24 The second class of benefits, namely, those granted to widows of deceased subscribers, are absolute, not dependant on the decision of the Directors, but controlled solely by the regulations of the institution.

ART 25 The widows of deceased subscribers shall be entitled to receive the annuities specified in the annexed table —

Provided that nothing contained herein, or in any other part of these rules of the institution shall be considered to entitle to the benefits of it any widow who may have been legally divorced or separated from her husband for adultery, or who at the period of her husband's demise may have quitted his protection, and be living in a state of notorious adultery, though not divorced or separated from him by law, or who subsequently to her husband's decease may be living in a notorious state of incontinence.

ART 26 If a widow pensioner on the fund marries, her pension is to cease during her coverture, but in the event of her again becoming a widow, she shall be re-admitted to all the benefits she may have enjoyed from the fund during her first widowhood, in like manner as if she had not re-married, but subject of course to all the limitations and conditions prescribed by the regulations.

ART. 27. Every widow benefitting by the military fund, and not provided by Government with a passage to Europe, shall be entitled (for one passage only) to an allowance of rupees 1,000. All applications from widows for passage-money from the fund, must be accompanied by a guarantee (Form No V) on the part of the Agents of the Ship, or other respectable party, that they will be responsible for a moiety of the passage-money allowed by the fund being returned in cases of death previous to the Pilot quitting the Vessel, on which the claimant's passage may have been taken. No claim for passage-money is admissible after the lapse of one year from the date of embarking for Europe.

ART. 28. Should the fund, however, at any period fall short of the demands upon it so that the annual income will not defray the amount of the annuities and other claims, then it shall be in the power of the directors, after submission to the army, to make a proportionate deduction from the annuity of each annuitant, excepting always the present annuitants of the Bengal widows' fund, and from the payments to other claimants above the rank of subaltern, until the state of the fund shall afford the means of complete payment, when, if a surplus income exists, the arrears shall be made good from the amount of surplus, but not otherwise.

SECTION IV—General Regulations

ART. 29. The Bengal military fund is to be administered by a president and directors, the number of directors to be regulated by the number of divisions in the army as defined by orders issued from time to time by government, for the guidance of the orphan society, each division, being as in the case of the orphan fund management, invited to elect a representative from among the officers residing at Barrackpore, Dum Dum and the Presidency, who may be available and who are inclined to serve as director, and the directors so chosen shall elect another as their president from among the members at the presidency.

ART. 35. The directors of the fund will hold regular monthly meetings, but no meetings, which are to be open for the reporters of the public press, but no meeting of the directors consisting of a smaller number than five, shall be competent to the transaction of business, and it will rest with any director, or with the secretary, to represent the occurrence of such necessity to the president, who will convene a special meeting within ten days from the date of his receiving the application, but no special meeting shall be called with the view of re-considering resolutions which may have been already adopted by a former meeting of directors, unless at the requisition of a number of directors greater than that which at ended such meeting.

The secretary will also submit to the directors who attended, drafts of all the letters which in those meetings he may have been desired to write. Letters demanding an immediate answer, when such may be of an ordinary nature, may be replied to by the secretary, without waiting for a meeting of the directors, but every letter proposed to be dispatched by the secretary, must previously receive the special sanction of one director, signified by his initial to the drafts, which will be sent to him for consideration.

ART. 39. When any new regulation shall appear to the directors or to any thirty subscribers, to be advisable, such regulation shall be circulated to corps for consideration, and the affirmative or negative of the majority of individual votes (to be ascertained at the expiration of four months) shall decide its adoption or rejection.

Before being circulated for votes all propositions shall be printed and a copy sent a month previously for publication to each newspaper throughout the Bengal presidency and for circulation to each division and station staff officer, in private cases at the expense of the appellant. The proceedings of the director's meetings to be published and circulated in like manner.

ART. 40. If any subscriber or claimant on the fund shall be desirous to appeal from the decision of the directors to that of the subscribers at large, upon any subject which may not be specifically defined by the regulations, such appeal, provided it be approved by three directors, shall be referred by the directors, and decided upon in the manner prescribed in the preceding article, and the decision on such appeal, or that of the directors in cases not appealable, shall be final in all cases whatever, any further agitation of the question by a process of law or otherwise, being deemed in itself to be an absolute forfeiture of all claim on the fund.

ART. 41. When a reference shall be made to the subscribers at large respecting either a proposed regulation, or an appeal, the result of such reference shall be communicated to corps for the information of subscribers.

ART. 42. Generally all payments due from the fund are made quarterly in England, and monthly in India, but in cases when pensioners or claimants on the fund are about to embark for Europe, all arrears must be paid up to the end of the preceding month.

ART. 43. Any arrear which may be due to the fund by a subscriber or by an annuitant who may have received an over-payment, shall in all cases be deducted from the first payments to be made from the fund to the person owing such arrear.

ART. 44. All income derived from the Bengal Military Fund is declared to be unalienable, and the fact of attempting the alienation of such income in any manner, or under any pretence, shall be deemed in itself a forfeiture of all future benefits from the fund.

ART. 45. If a subscriber who may be dismissed from the service by a court martial or otherwise, shall afterwards be restored to the service, he shall be re-admissible to the fund on payment of the arrear that may have accumulated, with compound interest thereon, in the same manner as if he had suffered only temporary suspension. See Art 14.

ART. 46. All property belonging to the military fund at any period shall be invariably vested in the honorable company's securities. The necessity for retaining any balance is now dispensed with, and the secretary's office has no cash transactions. All payments in Calcutta are, in future, to be made at the Bank of Bengal, as sanctioned by the honorable the Court of directors, in 1852. All contributions from subscribers generally must be made through the pay department or public treasuries. Private drafts are prohibited.

ART. 47. The business of the fund in Europe is conducted through the home agent of the fund, who will from time to time receive the necessary instructions for their guidance, and to whom such applications will be preferred as cannot with equal convenience be submitted to the directors of the fund in India.

ART. 48. As soon as new rules are made out, one copy shall be sent to all officers commanding stations and posts for official record and the rules shall be corrected and published annually in the Army List printed at the Orphan Press, the dates when each was passed or altered, being noted in the margin.

N. B.—In general it may be mentioned that where no particular dates are referred to, the rules have not been altered since the establishment of the fund.

NOTICE.—As subscribers falling into arrears often request exemption from the penalties prescribed by the regulations, on the plea of ignorance of the rules, or of no demand having been made by the Secretary, the Directors notify that they do not admit either of these reasons as sufficient to entitle a subscriber to the exemption called for, and that every penalty incurred by non payment of Donations and Subscriptions must invariably and strictly be enforced, as prescribed by the rules of the Institution. The Secretary will continue to give notice when arrears are due, in all cases when they come to his knowledge, but every subscriber should protect his own interests, and see that his Subscriptions and Donations are regularly deducted by his paymaster, and immediately rectify any errors or omissions of that functionary.

(Modifications of Rule IV.)—This rule modified as respects subscriptions of Members of the Medical Board and Superintending Surgeons who proceed on furlough, as per undermentioned extract from the quarterly proceedings, dated 12th April 1841.

As by General Orders dated 24th April 1844 No. 93 a higher rate of furlough Pay has been granted to members of the Medical Board (£456-11-3 per annum) and superintending surgeons (£365 per annum) than had been previously assigned to those ranks, it becomes necessary to adopt a scale of subscriptions for them commensurate with their enhanced furlough pay, and in proportion to the amount payable by surgeons, to which effect no provision had been made in the fund rules because when they were framed the higher ranks of the Medical Service enjoyed no higher furlough pay than that of surgeons. The under-mentioned new scale of subscriptions was accordingly submitted for the votes of subscribers with the secretary's letter No. 216 of the 17th December last, and the following is the state of the Poll Members of the Medical Board to pay Sa. Rs. 67 or Co. Rs. 71 7-5 per month at the minimum on Sa. Rs. 133 or Co. Rs. 141-13-10 at the maximum rate while on furlough.

N. B.—Rule XXXII rescinded as per following resolution, *vide* Report of the Quarterly General Meeting held 14th January 1839.

Resolved.—That Rule XXXII appearing not to be founded on liberal or just principles towards one class of subscribers and that its tendency to accelerate promotion being questionable, while its direct effects in keeping back from joining the fund several of the seniors on the Medical list who would otherwise probably join it, is very obvious, the resolution moreover, not having been included in the original scheme of the fund submitted for the approval of the Honorable the Court of Directors, the said rule be rescinded from the regulations of the Fund

Rule XXXIV abrogated as per following Resolution passed at the 2nd Quarterly General Meeting, held 15th April 1840

Resolved—That as the amount of loss likely to be entailed on the institution by the operation of Section XXXIV of the Fund Regulations will in all probability prove very great, and interfere most essentially with the possibility of arriving at perfectly accurate conclusions in the calculation of chances it be abrogated from the 1st January 1840, except as respects incumbents who entered the Fund on the faith of that Rule's continued operation

N B.—The following resolution passed by the Committee of Management of the Bengal Medical Retiring Fund at their Meeting held on the 28th February 1838, having received the sanction of more than two thirds of the number of subscribers then in India, is passed into a Bye Law of the fund and under its conditions all admissions of subscribers who were in the service on the 31st October 1836, and did not then become subscribers are regulated.

Resolved—That as the admission from the medical list as it now stands of new Members to the Bengal Medical Retiring Fund so many years after its formation gives advantages to such new Members over the earlier supporters of the fund, having avoided the Tontine risk incurred by the latter, all persons applying for admission as subscribers to the said fund, or who are not actually subscribers this Wednesday, 24th February 1838, shall, previously to their application for admission (in the conditions of section III. of the fund's deed being circulated for the votes of the subscribers resident in this country, *pay as a penalty for the exclusive benefit of the fund* (but to be repaid to the applicant should he be rejected by a majority of vote) a sum of money equal to one moiety of his arrears of subscription, to be calculated in the first instance from the 1st January 1833 to the date of his application, and in the second, from the date of his application to the date of his final admission as a Member, to be decided by the committee of management of the fund, after due examination of the votes of the Members residing in India, such amount of penalty to be according to the rank of the applicant, as provided in section IV of the fund deed, or the annual sum according to the following table, and that such applicant or applicants shall also pay the expense of printing and circulating the reference for his or their admission previous to the results of votes being declared.

Our Governor General of India in Council

Para 1st The object of this representation is to induce the Court to relax the orders contained in our Military despatch, dated 11th July 1834, No 19, limiting the remittance through the Company's Treasury to three of the Annuities granted from the Bengal Medical Retiring Fund annually, and permit the whole number of six annually granted to be issued from our Treasury here.

Transmit for the Court's consideration copy of a representation from the Committee of Management of the Bengal Medical Retiring Fund.

Medical Retiring Fund.

2 The grounds urged by the Managers of the Fund in support of their application are the failure of their Agents, Messrs Cockerell, Larpent and Co., and the difficulty in times of commercial distress, as at present, of procuring any Bills of Exchange in the Market that could be relied on.

3 We regret the circumstances, but the Managers of the Fund must be aware that the same causes operate to our disadvantage also in obtaining remittance necessary to meet our existing engagement, or we should not import Bullion from India.

4. We cannot therefore admit of the payment from our Treasury of a larger number of Annuities from the Bengal Medical Retiring Fund than has already been sanctioned.

No 12

Extract from Proceedings of Second Quarterly Meeting held 10th July 1848.

Dr F. H. Brett, an Annuitant on this Fund, having taken the benefit of the Bankruptcy Act in England, and the Committee of Management having been served with notice not to pay the future Annuities to this Annuitant, but to the Official Assignee of the London Bankrupt Court, the following case was submitted to Counsel for opinion, and the opinions of Mr Advocate General Colville and Mr Morton thereon are submitted for the information of Subscribers,

Case for the opinion of Counsel.

Dr Frederick Harrington Brett was Surgeon in the East India Company's Bengal Medical Service, and was also Subscriber in the Bengal Medical Retiring Fund, and afterwards became an Annuitant on the Fund, Dr Brett went to England some years ago, and becoming involved in debt, he became bankrupt, and Mr A. B Belcher was appointed Assignee. Dr Brett was entitled to an Annuity from the Bengal Medical Retiring Fund of £300 per annum, and on the bankruptcy occurring the Assignee claimed payment of the amount of the Annuity from Messrs Coutts and Co, the Agents in London of the Fund, and a claim has also been made on the Secretary in Calcutta for the money. Copy of the letter and notice accompany. As also a copy of the Book of the Fund Rules.

Counsel's opinion is solicited as to whether the Annuity so payable from the Bengal Medical Retiring Fund, passes to the Assignee by reason of the bankruptcy, or not, and whether the Officers of the Fund are discharged from further liability by paying to the Assignee, or whether any and what precautions should be observed by the Committee or the Secretary of the Fund, or the Agents in London, in making the periodical payment and generally, &c

Opinion of Mr Advocate General James William Colville

There seems to me to be nothing in the Rules of the Bengal Medical Retiring Fund, which affords any ground for contending that in its legal incidents an Annuity payable out of that fund differs from any other Annuity. It would therefore in my opinion pass to the Assignee under an ordinary bankruptcy, *a fortiori* it will I think, do so when, as in this case, the appointment of Assignees and the consequent transfer of property takes place under a spontaneous application for relief under and submission to the provisions of the Statute 7 and 8 Vic 96.

I think therefore that the Officers of the Fund will be discharged from further liability by paying to the Assignee as the person legally authorized to receive the same, see Rule 30; nor do I know what precautions they should observe other than that of paying only on the receipt of the Official Assignee for the time being, or his duly Constituted Attorney. The more convenient course seems to be that the London Agents should pay in London to the Assignee personally.

Calcutta, 19th June,

Medical Retiring Fund Rules

Opinion of Mr. Counsellor T. C. Morton.

I have read the rules of the Bengal Medical Retiring Fund, the same being contained in the Deed of 10th October 1836, and it seems clear, that the Annuity is not in the nature of a pension or voluntary grant, but that it is a benefit which the retiring officer actually purchases, and for which (in ordinary cases) he could proceed by suits at law or in equity. This distinguishes the case from *Gibson vs the East India Company*, 5 Bingh N C 262, where the Court of Common Pleas in England held, that the pension of a Military Officer of the Company does not upon his bankruptcy pass to his Assignees. I am of opinion therefore that Mr F H. Brett's right, title and interest in the Annuity of £300 a year, to which he is entitled from the Bengal Medical Retiring Fund, pass wholly to his Assignee Mr Belcher. The Secretary of the Fund, or the London Agents, therefore will be justified in making the payments henceforth as they accrue, direct to the Assignee, for the time being. The only precaution necessary to be observed is to take a receipt from the Assignee as such.

(Signed)

T. C. MORTON.

NEW RULES FOR LEAVE OF ABSENCE TO CIVIL SERVANTS, LAW OFFICERS, CHAPLAINS, &c

No 32.

Fort William, Financial Department, the 25th August, 1854

The Most Noble the Governor General in Council is pleased to direct that the following Despatches from the Hon'ble the Court of Directors and the Rules passed in conformity with the instructions therein conveyed be published for general information —

Public Department No 23 of 1854. Our Governor General of India in Council.

1. By the provisions of Section 32 of the new Act for the Government of India, the prohibition of the receipt by our Servants, of any part of their Indian Allowances while absent in Europe is repealed, and as the legal obstacle to carrying out their views for the complete revision of the Rules for the grant of Leave of Absence, to our Civil Servants under Sick Certificate, or on Furlough, is thus removed, we lose no time in conveying our instructions on this important subject, a measure which we have long had in contemplation.

2. The present Rules allow of the absence of Civil Servants from their Stations under Medical Certificate within the limits of their Presidencies, for a period of two years with retention of Office, but subject to a deduction of one third from the salary thereof for the whole period of absence. They allow a Civil Servant to proceed under Medical Certificate to any place

Leave of Absence.

beyond the limits of the Presidency to which he belongs, but within the limits of the Company's Charter for any period not exceeding two years, without loss of office, but subject to deduction from the Salary thereof to the extent specified.*

3. After having given our best consideration to the subject, we propose to adopt the following Rules in lieu of those which have been referred to. We do not think it necessary, advertent to the increased facility of communication which has been afforded by the improved means of transport, and which the construction of Railroads in India will further increase, to maintain the restriction as to places and geographical limits which are now imposed by the regulations on Officers absent on Sick Leave. We are disposed to permit any Officer of this class to proceed to any place in India, in Europe, or elsewhere, as he may consider most conducive to the restoration of his health, and we intend therefore to impose no restriction whatever as to the places to which he may resort.

4. The following conditions must in future attach to Leaves of Absence granted to Servants who shall have resided ten years and upwards in India and who may be declared by a sufficient Medical Certificate to require such leave for the recovery of their health.

1st The total period of absence with the privileges hereinafter provided, shall not (save as specially excepted in para 5 of this Despatch) exceed eighteen months in the whole, nor shall it exceed fifteen months on any one occasion.

2nd The Office of the Absentee will be considered to be vacated if he shall be absent beyond eighteen months altogether, or beyond fifteen months at any one time, such absence to be computed, if he shall proceed to a Sanitarium within the Presidency from the date of his arrival thereat, if to any place beyond the Presidency but within the Continent of India from the date of his reaching the limits of his own Presidency, and if he shall proceed to Sea, from the date of the sailing of the vessel on which he may have embarked, from any Port in India which is not more distant from his Station than the Ports of his own Presidency, to the date of his arrival at any Port within the Presidency to which he belongs, or at any other Port which is not more distant from his Station than the Ports of his own Presidency.

3rd The Absentee will be entitled to draw a moiety of his Salary, and the same will be paid to him during such period of absence provided that he shall in no case draw a larger sum than Rupees 10,000 (£1000) per annum during that period. In cases in which the emolument of the Absentee's Office does not exceed Rupees 5000 per annum, no deduction therefrom shall be made for the period of eighteen months, nor shall such a deduction be made in other cases as shall reduce the allowance below Rupees 5,000 (£500) per annum.

4th If the Absentee be compelled by the state of his health under due Medical Certificate, to remain absent for a longer period than eighteen months, or fifteen months, at any one time, he will as before stated, vacate his appointment, but he will be permitted to receive an allowance at the rate of £500 per annum for such further period of absence as shall not exceed the entire term of three years in the whole. At the expiration of that term, all allowance must cease until the Servant's return to India.

5. If a Civil Servant of more than fifteen years' service after having been absent on Sick Leave for eighteen months in the whole or for fifteen months at one time, at whatever period of his service such Sick Leave shall have been taken shall be again compelled by the same cause to apply for Leave of Absence, your Government and those of the subordinate Presidencies may on special grounds grant Leave of Absence for one further period not exceeding six months, during which the Absentee may retain his Office and half his salary under the limits above enjoined.

6. If a Civil Servant after fifteen years' service shall be compelled by ill-health to apply for further Leave of Absence he may be permitted on special grounds to obtain it, but his Absence will involve the loss of Office and Salary. We shall however vest in your Government and in the subordinate Governments respectively, a discretionary power to grant in such last mentioned cases a Sick Absentee Allowance not exceeding Rupees 5,000 or £500 per annum for a further period not exceeding twelve months.

7. With regard to Junior Civil Servants who may be compelled by Sickness certified in a similar manner, to quit their Stations before the completion of ten years' residence, we have resolved to modify the existing rule by limiting the period of absence to eighteen months, or fifteen months at any one time. They will not retain their appointments, but we shall permit them to draw during this period, an allowance at the rate of £250 per annum as at present, and if any Junior Servant absent as aforesaid be prevented by the state of his health under due Medical certificate, from returning to his duty at the end of the periods above-named, he will be permitted to continue absent for a further term not exceeding eighteen months with the same allowance.

* If salary exceeds Rs two thousand per month, for the first year one sixth, & for the second year one fourth

Rules for

8. A Junior Civil Servant having enjoyed either of the above-named advantages will not be entitled to the Leave of Absence provided for Servants of more than ten years' service, after he shall have attained that standing, but if after he has attained it, he shall be compelled again by ill-health, to quit his Station, and provided that his former periods of absence shall have fallen short of three years in the aggregate, he may be permitted, under Medical Certificate, to receive a further Leave of Absence for such a period as shall make up the entire length of absence to three years, and during that additional period he shall receive an allowance at the rate of £500 per annum. He will however be entitled after fifteen years' service to the benefit of the special leave authorized to be granted according to paras. 5 and 6 of this Despatch.

9. None of the above-mentioned Rules will be applicable to Members of Council, each Member, may however, with the special sanction of the Government, be permitted to be absent under Medical Certificate, for a period not exceeding six months, retaining his Office and receiving half his salary, which shall be paid to him during such absence, but if his absence shall exceed six months, his Office will be vacated.

10. The privilege of retaining Office and a portion of salary for a limited period when on Sick Leave, will render it necessary that great attention should be paid to the Medical Certificates which may be produced by applicants for this leave. It is most essential to provide against any abuse of this privilege, and we desire that your immediate attention may be given to this subject with the view of such strict Regulations being framed as may prevent certificates being obtained on sufficient grounds. You will forward to us the Regulations that you may think requisite for this purpose.

11. It appearing that the existing Rules with respect to the grant of Leave of Absence on Private Affairs for short periods work well on the whole, we do not propose to make any change in them. The maximum continuous period for which such leave can be granted (without loss of Office) will therefore continue to be four months, viz one month's privilege leave, and three months' "special leave" on sufficient cause being shown as provided in the present Rule.

12. We have on many former occasions adverted to the evils connected with the multiplication of *Acting Appointments* and we rely upon your exercising the most vigilant attention that the repeated and particular instructions addressed to you from time to time upon this subject may be carried into effect, and especially those contained in our Financial Letter of the 3rd July 1844, No 11.

13. You will not fail also to recollect, that it is to be held as a principle not to be departed from, that no expense to Government is to ensue from the absence of Officers from their Stations, whether on Sick Leave or on short Furlough on Private Affairs, and you will therefore so regulate the sums to be paid to the persons holding Acting Appointments as to ensure that the aggregate amount of Official Salaries and emoluments shall on the one hand be appropriated to the liberal remuneration of the Acting Officers, and on the other hand cover the expense of the sums paid to the Absentees. We desire that an annual account may be transmitted to us showing how this Rule is carried out at each of the Presidencies.

14. In place of the period of three years (in one term) for which the Furlough is now granted, we have determined to concede to our Civil Servants the option of taking a Furlough of three years as at present or of dividing the Furlough into two periods which may either be of one or two years respectively, or of eighteen months each, provided that in every such case the Civil Servant shall declare on taking his Furlough, whether he intends it to be for twelve, eighteen or twenty-four months, in order that the Government may make its arrangements accordingly. In case of such division the first Furlough to be taken after residence of not less than ten years and the second Furlough after a further residence in India of ten years from the date of return from the first Furlough. But Civil Servants returning on Furlough to this Country will continue as at present to vacate their Offices.

15. Having thus regulated the periods of Furlough, we shall continue to grant for those periods, the Furlough Allowance at present given, namely, £500 per annum.

16. We shall not encourage the grant of extensions of Furlough beyond the prescribed period, nor shall we, upon any ground whatever, permit the receipt of Furlough Allowance for any longer period than three years under the Rules above stated.

17. Civil Servants who may have been compelled by Sickness to quit their duty under Medical Certificate before completing ten years' residence, will be entitled to receive during their Furlough on Private Affairs taken subsequently to their completion of that period of residence the ordinary Furlough Allowance of £500 per annum for three years.

18. In applying the foregoing Rules in substitution of those now existing, periods of absence to the limit of three years, either on Medical Certificate or on Furlough Private Affairs, will count as Service in India in the twenty-five years entitling to the Annuity, the present qualification of twenty-two years' residence being retained. Periods of short Leave of Absence in Private Affairs taken in India will count as Service and residence as at present.

Leave of Absence.

19. In the above Regulations we have endeavoured to provide for the efficiency of the Public Service while we have been anxious to extend every fair and reasonable allowance to our Servants, and considering the present Rules for the grant of leave to the Cape, &c., to admit of much abuse which cannot fail to be disadvantageous to the Public Service, it is our desire that the new Rules with regard to Sick Leave shall apply to all our Servants from the date of their promulgation.

20. We entirely concur in the opinion expressed in paras. 5 and 6, of your Despatch in this Department, dated the 3rd May 1850, No. 21, that it is advisable to prescribe by Rules, some period of service after which Civil Servants shall not be appointed to any new Office, nor be permitted to retain Office which they may have held for a period of five years and upwards, and we have resolved to establish thirty-five years as the period of service for the purpose in question. This rule must, as you suggest be subject to exceptions in special cases which are to be referred for our decision. In such cases, your recommendation will not fail to receive our prompt consideration. The above Rule may be applied to every Civil Servant appointed to Office after its promulgation, and to the case of every other Civil Servant to whom it relates, at the close of five years from the date of its promulgation.

21. We desire that the Rules for the grant of Leave of Absence on Sick Certificate and on Furlough, be at once modified in accordance with the views contained in this Despatch, and that Copies thereof be transmitted to us.

22. Military Officers employed in the Civil Department will be subject to the Rules laid down in our Military Despatch, dated the 30th December 1853, No. 18, for the grant of Leave of Absence and Furlough to Officers holding Military Staff Appointments.

23. You will communicate this Despatch to the Governments of Madras and Bombay and to the Lieutenant-Governor N. W. Provinces together with Copies of the Rules so soon as they shall have been revised.

PUBLIC DEPARTMENT, NO. 33 OF 1854.

OUR GOVERNOR GENERAL OF INDIA IN COUNCIL.

Para. 1. Since our Despatch in this Department dated the 5th April 1854, No. 23, on the subject of the Civil Furlough and Absentee Rules was prepared, we have received your Financial letter of the 16th December 1853, No. 73, enclosing a Memorial from several Members of the Bengal Civil Service praying for such modification of Section 11 of the existing Code, as will allow of the privilege leave of one month in each year being accumulated at the option of the Civil Servant for two or three years, after which leave may be taken, at the pleasure of Government, for either two or three months, (as the case may be) without deduction from allowances.

2. Section 11 formerly provided for the grant of privilege leave on the terms now solicited, and the old Regulation was altered in the year 1843, on the last occasion of the general revision of the Absentee Rules by your Government.

3. We have no objection to modify the Rule in accordance with the request of the Service, and with your recommendation, & to authorize you, should you consider that the Fund formed by deductions from the salaries of Absentees will admit of this additional charge upon it, to grant privilege leaves free of all deduction, even in cases in which some expense may be occasioned by the temporary absence.

4. The Government of Bengal having in their letter to you on the above subject, alluded to the question of Deputation Allowances, we refer you to para. 13, of our Public Despatch, dated 5th April 1854, No. 23, wherein we have authorized you to lay down such Rules as will "ensure that the aggregate amount of Official Salaries and Emoluments shall, on the one hand, be appropriated to the liberal remuneration of the Acting Officers, and, on the other hand cover the expense of the sums paid to the Absentees. We can of course, have no wish that the state should derive financial gain in consequence of the absence of our Servants, although we think it proper to insist that no extra charge shall thereby be incurred. Within that necessary limit, you may deal as liberally as you may be able, with the temporary occupants of Offices of Absentees.

5. Our attention has also been given to the question of including the Law Officers of the Company in the new Code of Absentee Regulations. On several occasions we have received memorials upon this subject, which we have treated in the Judicial Department, and so lately as the year 1852, a memorial was addressed to us by the Law Officers at the three Presidencies, praying to be granted the privilege of a Furlough to Europe

Rules for

6. We cannot extend to the Law Officers any boon which is not conceded to our Civil Servants, and as the retention of Office during Furlough on Private Affairs is prohibited, any rule for granting Furlough to Law Officers would be inoperative.

7. As respects Sick Leave, the following is the only Rule which has yet been applied to them. "Whenever our Advocate General or Attorney may quit the Presidency and proceed to Sea, the Local Government is to appoint a competent person to act during his absence, the Absentee receiving one-half of the salary for the period of his Absence, not exceeding 18 months, and the *locum tenens* receiving the other half for that period, and after its expiration the whole. In cases of absence a second time, the Absentee is to receive no part of the salary, the whole of which is to be paid to the Officiating Advocate or Attorney."

8. We have resolved to substitute for the foregoing rule, the rules which we have laid down for the grant of Sick Leave and short leave on Private Affairs, to our Civil Servants, both as respects the periods of absence and the limitation of allowances during such absence. Leave will of course only be granted at the convenience of the Government, and no additional expense will, on any consideration, be incurred by the Government on account thereof. If any Law Officer shall quit his duty, save on leave under Medical Certificate, or on short leave on Private Affairs, he will be considered to have vacated his appointment.

9. We desire that Rules may at once be framed in accordance with the views expressed in this Despatch, and that the same be embodied in the new Code, and circulated for information and guidance.

ECCLIASTICAL DEPARTMENT, No 2 of 1854 OUR GOVERNOR GENERAL OF INDIA IN COUNCIL

Para. 1.—Having considered the position of Members of our Ecclesiastical Establishments in connexion with the Rules which we have lately laid down for the grant of Furlough and Leave of Absence to our Civil and Military, we have determined that Chaplains and Assistant Chaplains shall be entitled to take Furlough on Private Affairs and on Medical Certificate on the same terms and conditions as Military Officers, with the following modifications.

1st.—Chaplains being allowed to retire after twenty years' service, the period of furlough (Private Affairs) must in their case, be limited to the present term of three years. The Furlough may, however, either be taken in one period, or be divided into two periods, whether of eighteen months each, or of two years and one year respectively, and if divided, the first Furlough may be taken, as at present, after seven years' residence, and the second Furlough after a further residence of ten years in India. As respects Chaplains and Assistant Chaplains appointed before the 11th January 1854, when the period of service was only eighteen years, their second Furlough, if they should exercise the option of taking Furlough in two periods, will be available after a second residence in India for a term of eight years.

2nd.—No Furlough or Leave of Absence, whether on Private Affairs or on Sick Certificate, taken in Europe, or else where out of India, in excess of three years, will be allowed to count as service in India, in the twenty years which qualifies Chaplains for their Retaining Pensions.

3. The Furlough Pay of Chaplains will remain as at present. With regard to their allowance during Sick Leave to any place out of India, we have resolved that, in accordance with the principle adopted for Military Officers, they shall receive salary, (but at a rate not exceeding £600 per annum) for the first six months of absence, and for the remaining twelve months an allowance equal to the Furlough pay of their standing. If the leave be extended an allowance equal to Furlough pay may be drawn for a further period of eighteen months.

4. You will communicate this Despatch to the Governments of the subordinate Provinces.

and Eight Others.

Leave of Absence.

Fort William, Financial Department, the 8th June 1855.

The following Rules for the grant of Leave of Absence for regulating deductions from Salaries and Deputation Allowances, and for limiting the period of Service of Civil Servants, are published for general information, and will take effect in all the Presidencies and Settlements under the Government of India from the date of the publication of this Notification, in supersession of the Rules of the 17th May 1843 and the 25th August 1854.

CHAPTER I.

RULES FOR APPLICATION FOR LEAVE OF ABSENCE.

Section I. No Leave of Absence from any Office or Station can be granted but by the Government under which the employment is held, and on the application of the party requiring such leave, saving in such cases as may hereafter be specially excepted. The application must be made publicly through the regular channel in the Department to which the applicant may belong.

Section II. The official allowances of the holder of a Civil Office quitting his Station without leave will entirely cease from the date of his quitting until his return, or, in the event of his subsequently obtaining leave, to the date of such leave being granted to him.

Section III. No leave of Absence shall have any retrospective effect, except in cases of severe illness, to be attested by Medical Certificate, conforming in every respect to the directions contained in Section V.

CHAPTER II

RULES FOR SICK LEAVE.

Section IV. Upon application duly made, the Government may grant Leave of Absence on Medical Certificate to any Civil Servant, to any place in India, in Europe, or elsewhere, as he may consider most conducive to the restoration of his health, without any restrictions whatever as to the places to which he may resort.

Section V. When an application for Leave of Absence is made on the ground of ill-health, it must be accompanied by a Certificate and a Statement of the case from the Medical Officer by whom the applicant has been attended, distinctly stating, from personal observation, the nature of the disease, the symptoms by which it is manifested, the period during which it has existed, as far as the knowledge of the Medical Officer extends, and the necessity for temporary removal to some other place in India, or in Europe, or elsewhere, as laid down in Section IV.; and in case of the applicant visiting the Presidency preparatory to obtaining leave, the Certificate must be counter-signed by the Members of the Medical Board, on their being satisfied, on a perusal of the Medical Attendant's statement of the case, that the leave applied for is absolutely necessary towards his recovery. Should the applicant's Medical Attendant be of opinion that he ought to proceed to a Sanitarium or other place without visiting the Presidency, the Certificate must, in the first instance, be counter-signed by the Superintending Surgeon of the Division in which the applicant may be located, and afterwards submitted with the statement of the case for the consideration and counter-signature of the Members of the Medical Board.

The Certificate shall be given in the following form —

I, A. B., Surgeon at or of ——— do hereby certify that E. F., of the Civil Service, is in a bad state of health, and I solemnly and sincerely declare that, according to the best of my judgment, a change of air is essentially necessary to his recovery, and do therefore recommend that he may be permitted to proceed to Sea, (or to such place as the Surgeon may think proper expressing it in the Certificate.)

The following form shall be observed by the Members of the Medical Board or the Superintending Surgeon, in counter-signing the Surgeon's Certificate —

We (or I) do hereby certify, that, according to the best of our (or my) professional judgment, after careful personal examination of his case, we (or I) consider the state of health of E. F. to be such as to render Leave of Absence for a period of ——— absolutely necessary (or highly desirable) for his recovery.

An application for extension of leave must, if the applicant be in India, be accompanied by a Certificate to a like effect from the Medical Officer by whom the applicant is attended, together with a statement showing sufficient reason for the extension solicited; and such Certificate must be counter-signed by the Members of the Medical Board, or by the Superintending Surgeon of the Division, in which the applicant may be located; as the case may be, on perusal of the statement. In like manner, if the applicant shall have proceeded beyond the Territories under the Government of the East India Company, he must furnish a Certificate and Statement to the required effect from a Surgeon or Physician at the place of his temporary residence, by whom he has been attended, such attendance, and the period of it, to be stated, and the Certificate to be

counter-signed by the Examining Physician of the East India Company if the applicant is in England, or if not in England by the principal Medical authority of the Colony or Country to which the Absentee may have proceeded, or some sufficient reason stated for the want of such counter-signature if the Certificate be not so counter-signed. The Medical Board or Superintending Surgeon, before counter-signing a Certificate as above-mentioned, must either personally examine the applicant or state some sufficient reason why they, or he, have or hath been unable to do so. When any of the required particulars are neglected, leave will be refused.

Section VI. The following conditions will in future attach to Leaves of Absence granted to Civil Servants who may be declared by a sufficient Medical Certificate to require such leave for the recovery of their health:—

1st.—The total period of absence, with the privileges hereinafter provided, shall not (save as specially excepted in Clause 5 of this Section and in Section VII. of these Rules) exceed eighteen months in the whole, nor shall it exceed fifteen months on any one occasion.

2ndly.—The office of the absentee will be considered to be vacated if he shall be absent beyond eighteen months altogether, or beyond fifteen months at any one time unless he shall obtain leave under Clause 5 of this Section, such absence to be computed, if he shall proceed to a Sanatorium within the Presidency, from the date of his arrival thereat to the date of his quitting the Sanatorium; if to any place beyond the Presidency, but within the Continent of India, from the date of his leaving the frontier of his own Presidency to the date of his return thereto; and if he shall proceed to Sea, from the date of the sailing of the Vessel on which he may have embarked from any Port in India which is not more distant from his Station than the Ports of his own Presidency, to the date of his arrival at any Port within the Presidency to which he belongs, or at any other Port which is not more distant from his Station than the Ports of his own Presidency.

3rdly.—The absentee will be entitled to draw a moiety of his salary, and the same will be paid to him during such period of absence, provided that he shall in no case draw a larger sum than Rupees 10,000 (£1,000) per annum, during that period. In cases in which the emolument of the absentee's office does not exceed Rupees 5,000 per annum, no deduction therefrom shall be made for the period of eighteen months, nor shall such a deduction be made in other cases as shall reduce the allowance below Rupees 5,000 (£500) per annum. In cases in which the salary of the absentee may not be of that amount, the full salary will be granted.

4thly.—For the interval elapsing between departure from Station to the commencement of reckoning absence or between the end of reckoning absence and re-arrival at Station, the absentee will be allowed a special leave for an additional period of one month, two months or three months according to the distance to be travelled as prescribed in Section XX. of these Rules, and during this additional period the absentee will be entitled to draw the same salary as is allowed by Clause 3 of this Section.

5thly.—If the absentee shall apply under Medical Certificate, to remain absent for a longer period than eighteen months or fifteen months at any one time, and it shall appear to the Honorable the Court of Directors to be absolutely necessary after examination by their Medical Officer in England, that he should do so, the leave which may have been granted in India will, under the orders of the Honorable Court, be extended to the limit of two years, with permission to retain Office, and half salary within the limits enjoined, during such extension.

6thly.—If the absentee be compelled by the state of his health, under due Medical Certificate, to remain absent for a longer period than eighteen months, or fifteen months at any one time, or beyond two years in the case of an extension under Clause 5, he will, as before stated, vacate his appointment, but he will be permitted to receive an allowance at the rate of £500 per annum if above ten years' standing at the time when the leave was granted, or of £250 if not above ten years' standing at the time when the leave was granted, for such further period of absence as shall not exceed the entire term of three years in the whole. At the expiration of that term, all allowance must cease until he reports his return to his Presidency.

Section VII. If a Civil Servant of more than fifteen years' service, after having been absent on Sick Leave for eighteen months in the whole, or for fifteen months at one time, at whatever period of his service such Sick Leave shall have been taken, shall be again compelled by the same cause to apply for Leave of Absence, the Government of India and the subordinate Governments may, on special grounds, grant Leave of Absence for one further period not exceeding six months, during which the absentee may retain his office, and half his salary under the limits above-enjoined.

Section VIII. If a Civil Servant, after fifteen years' service, shall be compelled by ill health to apply for further Leave of Absence, he may be permitted on special grounds to obtain it, but his absence will involve the loss of office and salary; the Government of India and the subordinate Governments will however, respectively, exercise a discretionary power to grant, in such last-mentioned cases, a sick absentee allowance, not exceeding Rupees 5,000 or £500 per annum, for a further period not exceeding twelve months.

Leave of Absence.

Section IX. A Civil Servant who has taken Sick Leave under the Rules of the 17th May 1848, will not be debarred by that circumstance from taking such leave again under the above Rules, with the privilege of retaining Office, provided the leave be not granted till three years have expired after his return from his leave under the Rules of the 17th May 1843.

Section X. None of the above-mentioned Rules will be applicable to Members of Council. Each Member may, however, with the special sanction of the Government, be permitted to be absent, under Medical Certificate, for a period not exceeding six months, retaining his office and receiving half his salary, which shall be paid to him during his absence, but if his absence shall exceed six months, his office will be vacated.

Section XI. Civil Servants who may desire to draw their allowances while absent on account of sickness under the above Rules, will be required to give security in such amount and form as may be fixed by the Government for the refund of any excess that may be drawn either by the Agents at the Presidency or by themselves in case of their coming under retrenchments.

CHAPTER III.

RULES FOR SHORT LEAVE ON PRIVATE AFFAIRS.

Section XII. The Government may grant to Civil Servants Leave of Absence to any place in India, Europe or elsewhere without any restrictions whatever as to the place to which they may resort for one month in each year, without deduction from the salaries and emoluments drawn by such Servants—such leave, however, will only be granted when the Government is satisfied that no inconvenience will arise from the departure of the Officer seeking it. No second leave can be granted under this Rule until the completion of eleven months from the expiration of the last leave, but Servants not availing themselves of the indulgence in any one year, may obtain, under the like conditions, Leave of Absence for two successive months, to commence at or after the expiration of twenty-two months from the termination of their former leave; and if two years elapse without enjoyment of the privilege, leave for three months may, in like manner, be granted at the expiration of thirty-three months from the termination of the last preceding leave; but no leave shall be granted under this Rule for any period exceeding three months. If an Officer shall not return at the expiration of the period of leave granted him under this Rule, he shall forfeit all pay and allowances during the time of his remaining so absent without leave, and if he shall so continue absent for more than one month beyond the term granted, his office shall become vacant.

Civil Servants absent from their Stations under Medical Certificate cannot be admitted to leave under this Rule in continuation of their Sick Leave, and if, while absent under this Rule, they be granted extended leave under Medical Certificate, they shall be considered liable to the Rules applicable to Leave of Absence on Medical Certificate for the whole period of their absence.

Civil Servants who have been absent on Medical Certificate during any portion of a calendar year are not entitled to leave under this Rule during that year, but in determining the interval necessary to entitle a person to leave under this Rule, no reference will be made to any intermediate Leave of Absence that may have been granted under Section XIV., Clause.

Section XIII. As a general Rule, when leave is granted under Section XII., such leave will be in one period only, whether for a whole month or less, and not in detached portions to complete one month within the year, and the term year shall be held to mean the calendar year, commencing with the 1st of January and ending with the 31st December, but as an exception to this Rule, it shall be discretionary with the several Local Governments, where good cause is shown for the indulgence, and it is attended with no public inconvenience, to sanction Leave of Absence under this Rule to such parties as may not have occasion to apply for the whole at once, in instalments, not to exceed in the aggregate one month within the calendar year, on the understanding that no leave can be granted for any fresh calendar year until the completion of three months from the expiration of the entire leave or of the last instalment of leave taken in the past calendar year.

Section XIV, Clause I. The Government may, on sufficient cause being shown, grant to a Civil Servant special Leave of Absence on Private Affairs for six months, to any place in India, Europe or elsewhere, without any restrictions whatever as to the places to which he may resort provided, however, that if any Officer to whom such leave shall be granted shall be absent from his Station for any period exceeding that to which he may be entitled without deduction, under Section XII., the absentee shall, for the period in excess, draw no more than one-half of his salary and allowances. After an absence of six months (exclusive of any period which may be granted under Section XII.) any Officer held by the absentee shall become vacant.

Section XIV, Clause II. The Leave granted under this Section will be computed from the date of the absentee's quitting his Station to the date of his return thereto, and a second leave of the same

description cannot be taken till the expiration of six years from the date of return to duty from a former leave. No portion of the half salary allowed to be drawn will be claimable till the absentee shall have returned to his duty.

Clause III. It will be understood that leave under this Section is not to be granted as a matter of course to every applicant, but that it will be the duty of the Government to consider and determine whether the grounds of the application are sufficiently urgent to justify the concession of the leave.

CHAPTER IV.

FURLOUGHS ON PRIVATE AFFAIRS.

Section XV. In the place of the period of three years (in one term,) for which Furlough has hitherto been granted, Civil Servants will be allowed the option of taking a Furlough of three years as at present, or of dividing the Furlough into three periods of one year each, to be taken after successive periods of seven years' service, or into two periods, which may either be of one or two years respectively, or of eighteen months each, provided that, in every case, the Civil Servant shall declare, on taking his Furlough, whether he intends it to be for twelve, eighteen, twenty-four or thirty-six months, in order that the Government may make its arrangements accordingly. In case of a division, into two periods, the first Furlough must be taken after a residence of not less than ten years, and the second Furlough after a further residence in India of ten years from the date of return from the first Furlough, but Civil Servants returning on Furlough to Europe will continue, as at present, to vacate their offices.

Section XVI. The Furlough Allowance granted during the periods mentioned in the last Section will be at the rate of £500 per annum, and the receipt of it will not, on any grounds whatever, be permitted for any longer period than three years.

Section XVII. Civil Servants who may have been compelled by sickness to quit their duty under Medical Certificate, before completing seven years' residence in India, will be entitled to receive during their Furlough on Private Affairs, taken subsequently to their completion of that period of residence, the ordinary Furlough Allowance of £500 per annum, for three years.

Section XVIII. Clause I. In applying the foregoing Rules in substitution of those before existing, periods of absence to the limit of three years, will count as service in India in the twenty-five years entitling to the annuity, the present qualification of twenty-two years' residence being retained.

Clause II. Absence on Medical Certificate to the extent of one year will reckon as Service and residence in India, and be so computed in addition to the three years of absence which under the Clause next preceding are allowed to be reckoned as Indian Service. All periods of short Leave of Absence on Private Affairs taken under Sections XII. and XIV. of these Rules will also count as service and residence.

Section XIX. Military Officers employed in the Civil Department will be subject to the Rules laid down in General Orders No 1150 dated 7th November 1854, for the grant of Leave of Absences and Furlough to Officers holding Military Staff Appointments.

CHAPTER V.

RULES FOR JOINING STATIONS.

Section XX. There shall be allowed to Officers appointed to any new Office the periods of one month, two months, or three months for joining, accordingly as the distance may not exceed 300 or 600 miles, or be in excess of the last-mentioned distance. Officers not joining their Station within the said periods, respectively, shall forfeit their salary for the time delayed in excess of the above periods, and if such excess shall exceed one month, the office shall be vacated, unless otherwise specially ordered by Government.

Section XXI. Upon the first appointment of any Civil Servant, who shall be reported qualified for Public Service by the Examiners appointed by the Government, to any Civil Station, there shall be allowed for travelling expenses to the Station, an allowance at the rate of 6 annas per mile by the direct Post Road, according to the Polymetrical Tables of the Post Office, the Bill for which allowance will be passed by the Civil Auditor after the Officer shall have joined the Station: if required in advance, an order of the Government shall be necessary.

Section XXII. The salary of office will be payable from the date only of the Officer joining. In the case of Junior Civil Servants, the salary of Assistants will be payable from the date of their being reported qualified for the Public Service unless forfeited under the preceding Rule, through delay in joining the Station to which they may be appointed.

Section XXIII. In case of a change of office, when an Officer is appointed to a higher situation, he shall not draw the higher salary until he joins. For the period occupied in travelling, the Rule No. XX. regulating the time and distance for joining Station, shall be applicable, and the Officer will, for the periods allowed in that Rule respectively, draw out of the salary of the office he is about to join, a sum equal to that of his previous situation.

Leave of Absence.

CHAPTER VI.

RULES FOR DEPUTATION ALLOWANCES.

Section XXXIV. The sum of Company's Rupees 52,000 per annum having been fixed, under the orders of the Court of Directors, as the maximum salary of Civil Office for the officers of Government under the situation of Member of Council, Civil Servants who may draw larger allowances than this annual sum, as a consolidated personal and sumptuary allowance, in consideration of the necessary expenses of their position, will, in all cases of absence, be treated in respect to deductions as drawing only the allowance thus limited, and the excess above the monthly salary yielded by that annual sum shall remain as a local addition to the usual Deputation Allowance to be drawn by the Officers performing the duties, to meet the necessary expenses of his position; provided however, that in the cases of Civil Servants appointed to offices of the description referred to subsequent to the 2nd June 1854, the sum of Rupees 50,000 shall be held to be the maximum salary, under the Government Resolution, No. 563, of that date.

Section XXV. Deputation Allowances shall be granted to Civil Servants temporarily performing the duties of an office according to the following rates, and subject to the limitations and conditions hereinafter laid down —

To Civil Servants not holding any substantive appointment, at the rate of 50 per cent, on the monthly salary of the appointment officiated in, such Deputation Allowance being in addition to the Subsistence Allowance of their respective ranks

To Civil Servants holding an office of inferior emolument, when officiating in an office of superior emolument, at the rate of 20 per cent, upon the monthly salary of the appointment officiated in, in all cases in which the salary of such appointment shall not exceed Company's Rupees 2,000 per mensem, and in respect to all appointments of which the salary shall be more than Company's Rupees 2,000 per mensem, at the rate of 20 per cent upon Company's Rupees 2,000, and of 10 per cent on the amount in which the monthly salary may exceed Company's Rupees 2,000, provided however that no lower rate of Deputation Allowance shall be given than Rupees 200 per mensem.

The Deputation Allowance shall in all cases be in addition to the salary of the substantive appointments held by the Officer on deputation.

The above rates are granted provisionally, subject to future revision.

In the Punjab, Nagpore and other places, where appointments are by classes, the amount of Deputation Allowances, payable at the above rates, will be calculated, not upon the salary of the individual Officer holding the substantive appointment in which the Officer deputed may be temporarily officiating, but on the average rate of salary attached to the particular class to which the appointment may belong

A Civil Servant acting for another shall have no claim to Commission or Fees, where any such sources of emolument exist. These shall be regarded as forming part of the income of the Officer to be relieved, subject to the prescribed deductions

A Civil Servant acting in an appointment, the salary of which is to be reduced on the retirement of the present incumbent, will draw Deputation Allowance on the reduced salary,

An Officer officiating in more than one appointment will be entitled to Deputation Allowance, regulated by the aggregate amount of the salary of the offices.

An Officer appointed permanently to a higher situation, but prevented from joining his appointment by an order of Government, and detained to officiate in a situation of still higher emolument than the one to which he has been permanently appointed, will be entitled to a Deputation Allowance in addition to the higher salary to which he has been promoted

Section XXVI. No Civil Servant, temporarily officiating for another, shall draw an amount larger than the entire emoluments of the office in which he is officiating, and if the amount of the Deputation Allowance, according to the prescribed scale, added to the permanent emoluments of the officiating Servant, would exceed the emoluments of the office in which he is temporarily acting, the excess shall not be drawn. But this provision shall not apply to the case of any Officer deputed for special reasons to act in an office of inferior emolument to his own. In cases where an Officer holding two appointments, on being deputed to officiate for another, shall be relieved only from one, he shall receive no Deputation Allowance, unless the emoluments of the office in which he is deputed to act exceed the united emoluments of his permanent appointments, and in that case the Deputation Allowance shall be limited to the difference.

Section XXVII. No subordinate Officer acting for his principal or for any other person holding a superior appointment in the same office or establishment, at the same Station shall be entitled to any Deputation Allowance until after the expiration of one month, and then the allowance is not to be drawn in arrear. But a servant previously out of employment, or who may be deputed to act from a different Station, shall be entitled to Deputation Allowance from the date at which he may enter upon the discharge of the duties to which he has been temporarily appointed.

Rules for Leave of Absence.

Section XXVIII. Civil Servants, if deputed to act at a distance from the Stations where they are employed, or if ordered by Government on special duty, shall be permitted to draw Travelling Allowances at the rate sanctioned in the case of first appointment.

CHAPTER VII.

RULES FOR LIMITING THE PERIOD OF SERVICE.

Section XXIX. After thirty-five years' service no Civil Servant shall be appointed to any new office, nor be permitted to retain an office which he has held for a period of five years and upwards, except in special cases, which are to be referred for the decision of the Hon'ble the Court of Directors. This Rule will be applicable to every Civil Servant appointed to office after its promulgation, and to the case of every other Civil Servant to whom it relates at the close of five years from the 25th August 1854.

CHAPTER VIII.

RULES FOR THE GRANT OF LEAVE OF ABSENCE TO LAW OFFICERS.

Section XXX. The East India Company's Law Officers may obtain Sick Leave and Short Leave on Private Affairs under the conditions prescribed in the case of Civil Servants, both as respects the periods of absence and the limitation of allowances during such absence. Leave will however only be granted at the convenience of the Government, and no additional expense will on any consideration be incurred by the Government on account thereof.

If any Law Officer shall quit his duty, save on leave under Medical Certificate or on Short Leave on Private Affairs, he will be considered to have vacated his appointment.

CHAPTER IX.

RULES FOR CHAPLAINS AND ASSISTANT CHAPLAINS.

Section XXXI. Chaplains and Assistant Chaplains may take Furlough on Private Affairs and on Medical Certificate, also privilege leave and leave for short periods on Private Affairs and on Medical Certificate in or out of India, on the same terms and conditions as Military Officers, with the following modifications:—

1st.—Chaplains being allowed to retire after twenty years' service, the period of Furlough on Private Affairs is in their case limited to the present term of three years. The Furlough may however either be taken in one period, or be divided into two periods, whether of eighteen months each, or of two years and one year, respectively, and if divided, the first Furlough may be taken, as at present, after seven years' residence, and the second Furlough after a further residence, of ten years in India. As respects Chaplains and Assistant Chaplains appointed before the 11th January 1854, when the period of Service was only eighteen years, their second Furlough, if they should exercise the option of taking Furlough in two periods, will be available after a second residence in India for a term of eight years.

2nd.—No Furlough or Leave of Absence, whether on Private Affairs or on Sick Certificate, taken in Europe or elsewhere out of India, in excess of three years, will be allowed to count as Service in India in the twenty years which qualifies Chaplains for their Retiring Pensions.

Section XXXII. The Furlough Pay of Chaplains will remain as at present. With regard to their allowance during Sick Leave to any place out of India, they shall receive salary (but at a rate not exceeding £600 per annum) for the first six months of absence, and, for the remaining twelve months, an allowance equal to the Furlough Pay of their standing. If the leave be extended, an allowance equal to Furlough Pay may be drawn for a further period of eighteen months.

By order of the Hon'ble the President in Council,

(Signed) C. H. LUSHINGTON,

Secy. to the Govt. of India.

Amended Rules for Leave of Absence.

The subjoined Amended Rules for Leave of Absence were published in the Calcutta Gazette, dated 2nd January 1856

RESOLUTION.—With reference to the instructions of the Hon'ble Court, conveyed in the Despatches above adverted to, the Most Noble the Governor General in Council is pleased to resolve that the following modifications of the Civil Absentee Rules, dated 8th June 1855, be published in the *Official Gazette*, in supercession of those inserted in the margin,* and that the Notification published on the 18th August last, amending Section XIII. of these Rules, be cancelled.—

*
Amended Rules.

Section VI Clause 5.—If the absentee shall apply, under Medical certificate, to remain absent for a longer period than eighteen months, or fifteen months, at any one time, and it shall appear to the Hon'ble the Court of Directors to be absolutely necessary, after examination by their Medical Officer in England, that he should do so, the leave which may have been granted in India will, under the orders of the Hon'ble Court, be extended to the limit of two years, with permission to retain office and half salary within the limits enjoined during such extension. If the absentee be in India, the leave may be extended to the limit aforesaid, under the orders of the Government of India, or the subordinate Governments, upon the certificate of a Board of Medical Officers to be summoned to report on the state of the absentee's health.

Section XII.—The Government may grant to Civil Servants leave of absence to any place in India, Europe or elsewhere, without any restrictions whatever as to the place to which they may resort for one month in each year, without deduction from the salaries and emoluments drawn by such servants: such leave, however, will only be granted when the Government is satisfied that no inconvenience will arise from the departure of the Officer seeking it. No second leave can be granted under this Rule, until the completion of eleven months from the expiration of the last leave on Medical certificate, but servants not availing themselves of the indulgence in any one year may obtain, under the like conditions, leave of absence for two successive months, to commence at or after the expiration of twenty-two months from the termination of their former leave, and if two years elapse without enjoyment of the privilege, leave for three months may, in like manner, be granted at the expiration of thirty-three months from the termination of the last preceding leave, but no leave shall be granted under this Rule for any period exceeding three months. If an Officer shall not return at the expiration of the period of leave granted him under this Rule, he shall forfeit all pay and allowances during the time of his remaining so absent without leave, and if he shall so continue absent for more than one month beyond the term granted, his office shall become vacant.

Civil Servants absent from their Stations under Medical certificate cannot be admitted to leave under this Rule in continuation of their sick leave, and if, while absent under this Rule, they be granted extended leave under Medical certificate, they shall be considered liable to the Rules applicable to leave of absence on Medical certificate for the whole period of their absence.

Civil Servants, who have been absent on Medical certificate during any portion of a calendar year, are not entitled to leave under this Rule during that year, nor can leave under this Rule be taken in connection with, or continuation of, leave granted under Section XIV. Clause 1.

Section XIV Clause 1.—The Government may, on sufficient cause being shown, grant to a Civil Servant special Leave of Absence on private affairs for six months to any place in India, Europe or elsewhere, without any restrictions whatever as to the places to which he may resort, provided however that the absentee shall draw no more than one-half of his salary and allowances. After an absence of six months any office held by the absentee shall become vacant.

Clause 2.—The leave granted under this Section, if taken in India, will be computed from the date of the absentee's quitting his Station to the date of his return thereto, and if taken to Europe or beyond Indian limits, from the date of the sailing of the vessel on which he may have embarked from the Port nearest to his Station, to the date of his arrival at the same on his return to duty. A second leave of the same description cannot be taken till the expiration of six years from the date of return to duty from a former leave. No portion of the half salary allowed to be drawn will be claimable till the absentee shall have returned to his duty.

Amended Rules for Leave of Absence.

For the interval elapsing in the case of leave taken to Europe or beyond Indian limits, between departure from Station to arrival at the Port of embarkation, or between return to Port and re-arrival at Station, the Government may grant, on the same terms and conditions as the special leave, such an additional period of leave as may be considered to be absolutely required to enable the absentee to reach the Port of embarkation, or to return from the Port of disembarkation to his Station.

RULES.

As passed at the General Meeting of Subscribers to the Bengal Civil Fund on 31st July
(With revision of Articles V. and VII. at Meeting of the 30th March, 1852, as announced to the Meeting of 31st July, 1852.)

ART. I. The object of the Bengal Civil Fund shall henceforth be to provide for the widows and children of deceased Members, without reference to any property they may possess or acquire.

II. The Hon'ble the Court of Directors, and the Governor General of India in Council, shall be solicited to continue Patrons of the Institution.

III. The Fund shall be supported by the contributions of the Company's Covenanted Civil Servants on the Bengal Establishment now subscribing, or who may hereafter join the Service, aided by the donation of the Hon'ble the Court of Directors, it being, as heretofore, at the option of such of the subscribers as were admitted to the Service prior to the 17th of January 1852, and have not, in pursuance of a resolution passed at the General Meeting of the 28th of July 1817, signed the declaration of a determination to continue their contributions to the Fund during the whole period of their Service in India, at any time to withdraw altogether therefrom, forfeiting thereby all claims upon the Fund, whether for sums subscribed, or on any other account whatsoever.

IV. The Subscribers shall contribute, from the 1st January, 1850, at the following rates of percentage on their salaries and other authorized public emoluments, including furlough allowance.

Married subscribers $4\frac{1}{2}$ per cent.

Widower and unmarried subscribers $2\frac{1}{2}$ per cent.

The subscriptions on this account being liable to increase or decrease, according to the necessities of the Fund, as ascertained by a quinquennial adjustment of its assets and liabilities.

V. Married and widower subscribers, with families, desirous of securing the benefits of the Fund for all, or any of their children, shall contribute further for such children at the following rates.

Married Subscribers—for each unmarried daughter $\frac{1}{2}$ per cent.—for each son under the age of 21 years $\frac{1}{4}$ per cent.—for Widower Subscribers, double the above rates:

VI. Subscribers, whether in Europe or India, are required to intimate to the Secretary to the Fund, the date of their marriage, and of the birth of each child, within one month after the date of the occurrence. On failure of such intimation within the prescribed time, but if made within three months, the additional subscriptions will be levied with interest at 8 per cent., and a fine of Rupees 50 (fifty), and if made within six months, with interest at 8 per cent., and a fine of Rupees 100 (one hundred). After six months the admission of the wife or child to the benefits of the Fund will be dependent on the decision of a General Meeting, subject to such penalty, not being less than Rupees 100 in the case of a child, or Rupees 500 in that of a wife, besides arrears of subscription with interest at 8 per cent., as the meeting may determine upon each case.

VII. On the death of a subscriber, should the amount of his subscriptions levied under Articles IV. and V., with interest, fall short of one-third of the value of the pension or pensions granted by the Fund, his family shall be allowed to make up the deficiency, failing which a deduction at the rate of one-sixth shall be made from such pension or pensions, until the minimum

Civil Fund Rules.

payment of one-third has been completed. In calculating this minimum, the whole of the contributions of the deceased subscriber shall be taken into account, and the deduction, if any, shall be made rateably from the pension of each member of his family.

VIII. *First.* Subscribers who may hereafter retire from the Service on Annuities of the Civil Service Annuity Fund, wishing to secure to their Widows and Children the full benefits of the Fund, must, on retirement, make up the amount of their subscriptions with interest to Rupees 25,000, and must also continue their contributions at the same rates on their annuities, as those levied from Subscribers in the Service on their allowances, and under the same conditions in regard to minimum payments, and liability to increase, or decrease of rates; and option being allowed to each Subscriber of paying up, once for all, either at the time of resigning the Service, or at any subsequent period, the full value of his contributions, according to the Tables of Mortality which, on the advice of an Actuary, may be adopted by the Managers. This commutation will be calculated at 5 per cent., in the following manner: Ordinary subscriptions, on the life of the Subscriber alone, additional subscriptions on the joint lives of husband and wife, and extra contributions for children on the joint lives of father and child. But such settlement will be open to re-adjustment, if the necessities of the Fund shall be found to require an enhanced rate of subscription; and every retired Subscriber will also be liable to pay in the same manner for each child afterwards born, and, in case of subsequent marriage, the additional premium as a married Subscriber.

Second. But subscribers hereafter so retiring from the Service may at their option, and making up the amount of their subscriptions with interest, either to Rupees 12,500 or to Rupees 6,250, and by continuing or compounding for, their contributions at the rates on their annuities as those levied from subscribers in the Service on their allowances, secure to their families, on the same conditions as above, in the former case one-half, and in the latter one-quarter of the amount of pensions and other allowances granted to the family of a subscriber dying in the Service, or of an Annuitant who has made up on retirement the full amount of Rupees 25,000.

IX. The amount of contribution payable by each subscriber in the Service shall, with the permission of Government, be deducted by the Civil Auditor or other officer auditing the monthly pay bills of Civil Servants, and be transferred to the Treasurer of the Fund in such manner as may be found most advantageous to the Fund, under the direction of the Committee of Managers. and all subscribers, from whose salaries deductions may be made less than may be due from them, shall be obliged, on discovery of the error, to make up the difference to the Fund with interest thereon, at the rate of five per cent. per annum.

X. Annuitants shall pay their subscriptions either to the Agents of the Fund, in England, or to the Treasurer of the Fund in Calcutta, under the rule prescribed in Article XXXVIII.

XI. The Sub-Treasurer of Government shall, with the permission of Government, be Treasurer to the Fund; and all money and securities for money, belonging to the Fund in India shall, with the like permission, be kept in the Public Treasury, subject to the direction and control of the Managers of the Fund.

XII. The unappropriated receipts of the Fund exceeding the sum of two thousand (2,000) Company's Rupees (to be reserved for current expense,) shall be vested in the Securities of Government, and made payable on account of the Fund under the signatures of any three of the Managers, but the Treasurer of the Fund shall be competent of himself to pass receipts for the interest receivable thereupon.

XIII. The Manager of the Fund in India shall nominate such persons as may appear to them proper to act as Agents for the Fund in England; and any money that may be required for the disbursements of the Fund in Europe shall be drawn for by, or remitted to, the Agents, as may be most advantageous to the Fund, in such manner as the Managers, under control of the subscribers, from time to time, may determine.

XIV. A duplicate copy of all rules and resolutions, which may be passed relative to the Fund, shall be transmitted to the Agents in England for their information, and that of all persons who may apply to them upon the subject.

XV. A Half-Yearly General Meeting of the Subscribers to the Fund, shall be held at the Presidency of Fort William, in the months of January and July of each year, on a day to be fixed by the Committee of Managers, and notified in the *Calcutta Gazette*, in two of the daily Calcutta papers, and in not less than two newspapers published in the North-Western Provinces two months before the day fixed upon.

XVI. The Committee of Managers, or any nine Members of the Institution, may also convene a Special General Meeting at the Presidency, by public notice, provided that the day fixed for holding such Special Meeting, and the object of it, be advertised in the manner prescribed in the foregoing article, for the general information of the subscribers.

XVII. All questions proposed at a General Meeting, whether half-yearly or special, shall be determined by a majority of votes; but the concurrent voices of at least nine Members shall be

requires to carry any motion whatever. The resolutions or proceedings of all General Meetings shall be signed by the Chairman, and published in the *Calcutta Gazette*. They shall also be printed and circulated to the subscribers.

XVII. Should the Managers or any Member or Members be desirous of bringing forward at a half-yearly Meeting, any new general question, or any question involving an increase or diminution of the rate of contribution now fixed, or any essential addition to, or alteration in the rules and principles of the Institution, now established, or any case not distinctly provided for under these rules, due notice of the purport thereof shall be given in the *Calcutta Gazette*, in two of the daily Calcutta papers, and in not less than two newspapers published in the North-Western Provinces, at least two months before such meeting. Provided, however, that on such questions and cases no resolution of a general Meeting, whether half-yearly or special, shall be conclusive; but the determination of the Meeting shall be referred to the subscribers at large, for final adoption or rejection, by the transmission of their votes to the Managers within two months after the date of issuing the notice, either by advertisement or by separate letters to each subscriber, as may be determined by the Meeting. It shall be the special duty of the Chairman of any Meeting to require attention to this rule.

XIX. The resolution of a General Meeting on any question not falling within the provisions of the preceding article, shall be open to revision after two months' previous notice given through the Secretary, and published in the *Calcutta Gazette*, in two of the daily Calcutta papers, and in not less than two newspapers published in the North-Western Provinces, of a motion to that effect at the next General Meeting which may be held at a period of not more than four months subsequently to the General Meeting at which such resolution was passed, and two months subsequently to the date of the notification above prescribed, but the resolution of such subsequent Meeting on such question shall be final and conclusive; provided always, that no resolution of a prior Meeting shall be reversed or altered at a subsequent Meeting, except by a majority consisting of as many votes, at least, as decided the question in the first instance. All resolutions not subjected to revision under this article shall be deemed final and conclusive.

XX. Upon all questions duly advertised for discussion at any half-yearly or special General Meeting, all subscribers shall be allowed to deliver their sentiments and votes by proxy. General proxies will only be allowed on behalf of Members who have left India, and, unless revoked, will be of force during the absence of such Members, or until the receipt of intelligence of their death.

Parties holding general proxies shall be entitled to vote on any question whatever that may arise. The holder of a special proxy shall be entitled to vote on any point connected with the question for which the special proxy was given, that may be discussed at the Meeting summoned for its determination.

No person shall hold general or special proxy, or be entitled to vote at any General or Special Meeting, who is not a subscriber to the Fund.

It shall be the duty of the Chairman of every General Meeting, after taking the votes of those present on each question, to call for the votes of proxies on the same question, the Chairman shall examine the proxies to see if they are in the prescribed form, and if not, shall reject them.

For forms of general and special proxies, see A and B of the Appendix.

XXI. The Annual Accounts of the Fund shall be made up to the end of April, and submitted by the Managers at the half-yearly General Meeting of the subscribers to be held in the month of January of each year. After being approved by the Meeting, a general statement of the state of the Fund shall be published for the information of the subscribers in the *Calcutta Gazette*. A Committee of Managers of the Fund shall, at each January Meeting, be appointed for the ensuing year, and shall consist of the Secretaries to the Government of India in the Home and Financial Departments, the Sub-Treasurer, and the Civil Auditor for the time being, with five other Members to be elected at such General Meeting.

XXII. The Committee of Managers, or the majority of those present at a meeting of five or more, or, if less than five be present, any three Members of the Committee who may concur in opinion, shall be competent to decide, in the first instance, upon all matters connected with the Fund not expressly reserved for the determination of a General Meeting; but every act of the Managers shall be liable to revision and control by the resolution of a General Meeting. It shall, moreover, be the duty of the Managers to report at the half-yearly Meetings the matters determined by them in the expired period.

XXIII. The Committee of Managers shall, subject to the control of a General Meeting, appoint the Secretary and Accountant to the Fund, and shall fix such allowance for him, payable from the Fund, as they may consider adequate to his services. The officer so appointed shall act under the immediate direction of the Committee of Managers, and shall also attend and obey the instructions of all General Meetings of the subscribers, the proceedings of which, and of the Committee of Managers and generally all matters appertaining to the Institution, which may not be transacted on the Premises in India, or the Agents in England, shall be kept under the charge

CIVIL FUND RULES.

of such Secretary and Accountant, and shall, on application to him, or the Committee of Managers, be open to the inspection of any of the subscribers to the Fund.

It is to be understood that the Secretary and Accountant appointed as above, shall not be subject to removal from his situation by any future Committee of Management, but in concurrence with a majority of subscribers at a General Meeting held as prescribed; provided, however, that it shall, at any time, be competent to the Committee to suspend the said Secretary and Accountant from the exercise of his functions, and to delegate them to another, pending the disposal of the question which may have given rise to such a proceeding.

XXIV. In the event of any of the Managers who may be selected annually being subsequently removed from the Presidency without an intention or expectation of returning during the year of their election, it shall be communicated to the subscribers at the next General Meeting, and in such instances, as well as in all instances of a vacancy in the situation of a Manager by death or otherwise, a new election, if necessary shall take place, for the unexpired term of the current year.

XXV. All applications for admission to the benefits of the Fund shall be made to the Committee of Managers. The Managers after calling for any further information which may appear to them requisite, are to submit the application and the decision they may have come to thereupon for the determination of the subscribers at the next General Meeting. In cases of emergency and distress, when the Managers may consider the party for whom the application is made clearly entitled to the benefit of the Fund, they are authorized to advance such proportions of the fixed allowances hereafter specified, as may appear to them indispensably requisite till a final determination can be passed by the subscribers at the next General Meeting aforesaid.

XXVI. The widow of every Subscriber who may die on or after the 1st January, 1850, and by whom the additional subscription levied from that date from married subscribers has been paid, shall, on furnishing a certificate of baptism, or a declaration, on honor, of her age, together with a certificate of marriage, and of the death of her husband with the date of his decease, be entitled to receive, subject to the deduction provided for in Articles VII and VIII, a pension of £300 (three hundred pounds sterling) a year if residing in Europe, or of Rupees 300 (three hundred Rupees) a month if residing in India.

XXVII. No widow shall be entitled to the benefits of the Fund who may have been separated under a legal decision from her husband for misconduct on her part, or who may be known to have been living in a state of adultery, though not divorced or separated from him by law.

CIVIL SERVICE RULES.

. From the commencement of the twelfth year to the end of the twenty-first year, Rupees 50 a month in India, or £100 a year in England.

Provided that at any time between the age of sixteen and twenty-one, on being settled in any profession or employment, he may receive, in advance, the whole amount of the annuity due to him up to the end of his twenty-first year, his claim on the Fund ceasing.

XXXII. In the case of a posthumous child, if the subscriber, its father, had no other children, or if, having other children, he contributed for them the extra payment prescribed by Article V., the same allowances shall be granted to it as if the extra contribution had been paid on its account; but if the father of a posthumous child having other children, did not contribute the extra payment prescribed by Article V. *for the youngest child living at the time of his death, the posthumous child shall not be entitled to derive any support from the Fund.*

XXXIII. The pensions of widows who may be admitted to the benefit of the Fund shall be paid in advance quarterly to themselves or to their authorized agents, but the acknowledgment of the widow herself shall be taken for all sums paid on her behalf.

XXXIV. All allowances granted from the Fund for the maintenance and education of children, shall be paid in advance quarterly to their guardians or relatives having the care of them, or to such persons as may be entrusted with the disbursement of the sums allotted for them, either by the Managers of the Fund in India or by the Agents of the Fund in England. *No advances made under this or the preceding rule shall be liable to be recovered on the death, marriage or coming of age of any incumbent on the Fund.*

XXXV. The pensions payable quarterly in advance to widows and children, under Articles XXXIII and XXXIV, shall be considered due on the 1st of January, 1st of April 1st of July, and 1st of October in each year; and should any pension be left undrawn in the hands of the Home agents of the Fund beyond three months after it becomes due, the same shall be at the risk of the pensioner.

XXXVI. The mother, guardian, or other person who may be in charge of any child or children entitled to a provision under Articles XXX, XXXI and XXXII. of these rules, or any other person who may be authorized to receive the same on account of such child or children, shall, on each occasion of payment, before receiving the annuity payable, or any part thereof, take and subscribe, before a Justice of the Peace or other competent officer, a solemn declaration according to form C. of the Appendix; and such declaration shall be dated and signed on or subsequent to the day on which the annuity is claimable, and shall, in the event of the widow, guardian or other person, entitled to receive the same being in Europe, be delivered to and left with the Agents for the Fund in England, or if such widow, guardian, or other person shall be in India, it shall be delivered to, and left with the Managers of the Fund for the time being.

XXXVII. If a subscriber to the Fund, continuing in the Civil Service, and wishing to retain his interest in the Fund, shall have proceeded to, or remain in Europe, otherwise than on furlough allowance, he shall be required, while absent from India, to pay to the Fund a monthly subscription equal to that which he would have been required to pay if on furlough allowance; provided, however, that no subscriber shall be permitted to avail himself of the above rule for any period exceeding five years, from the date of his departure from India.

XXXVIII. *If any subscriber, absent from India either on furlough or otherwise, shall omit to pay his subscription for the period of one entire year, his family shall not, in the event of his death during his absence, have any claim upon the Fund. It shall be the duty of the Managers to cause a written communication to this effect to be made to every subscriber so discontinuing his subscription; and it shall be competent to a General Meeting to admit to the benefits of the Fund the family of any such defaulting subscriber, on good and sufficient cause being shown for the omission, and on payment of all arrears with interest at 8 per cent. On the return to India of a subscriber who has failed during his absence to pay the full amount of his subscriptions, his allowances will be subject to the same rate of deduction as those of other subscribers, and on all arrears of subscription being made good, with interest at 8 per cent., his family will be entitled in the event of his death to the full benefits of the Fund.*

XXXIX. If a subscriber to the Fund shall be suspended from the Service of the Hon'ble Company, and shall die during the period of his suspension, his widow and children shall be entitled to the benefits of the Institution, in like manner as if he had not been suspended, provided he continues to pay at the rate fixed on his actual allowances under Articles IV. and V.

XL. If a subscriber to the Fund shall be dismissed from the Service of the Hon'ble Company, in the event of his death, his widow and children shall have no claim to the benefit of the Institution, and he shall not be allowed to retain any interest in the Fund by making any payment whatever.

XLI. Any person admitted into the Bengal Civil Service, with permission to take rank in that Service above any person that has been a subscriber to the Fund for a longer period than one year, shall not be entitled to become a subscriber to the Fund except upon the following conditions:

Civil Fund Rules.

First.—If the individual so circumstanced shall be unmarried, he shall not become a member of the Fund, except on condition of his paying to the Treasurer, within a period not exceeding six months from his commencing to receive salary from the Bengal Government, a sum of money equal to the average amount of the aggregate subscriptions of the unmarried members in whose year the individual wishing to subscribe may rank in the Bengal Civil Service, with interest thereon at the rate of five per cent. per annum.

Second.—If the individual so circumstanced shall be married or be a widower, having a child or children, he shall not become a Member of the Fund except on condition of his paying to the Treasurer, within a period of six months from his commencing to receive a salary from the Bengal Government, a sum of money equal to the average amount of the aggregate subscriptions of the married Members, retaining a contingent interest in the Fund, in whose year the individual wishing to subscribe may rank in the Bengal Civil Service, with interest thereon at the rate of five per cent. per annum.

Third.—Any applicant giving to the Secretary of the Fund, a written authority for the deduction of twenty per cent. from his future monthly allowances until the sums due from him, under the above rules, with interest, at the rate of five per cent. per annum, be paid up, shall be considered as having fulfilled the conditions required of him, provided always, that his family shall not benefit from the Fund, if he quit the Service before paying up the whole amount due from him.

Fourth.—The Managers are authorized to admit applicants in the first instance agreeably to the foregoing rules, but in all such cases the application shall be submitted for confirmation at the next General Meeting.

XLII. The actual value of all annuities, granted under the foregoing rules, as well as those already granted, shall be passed to a separate account on the books of the Institution, under the head of "Appropriated Fund," agreeably to the value shown in the annexed Tables, or any other which, on the recommendation of a professional actuary, may hereafter be adopted, by which Tables the one-third minimum value shall also be determined. Provided that, until the state of the Fund will admit of this rule being fully carried out, the Managers shall be at liberty to suspend such portion of it as relates to the pensions of incumbents under the old rules.

XLIII. On the 30th April, 1853, and subsequently at the close of every fifth years the Managers shall, according to these tables, calculate the actual values, of the pending annuities to widows and children of deceased members, and shall then compare the total of their values with the assets belonging to the Appropriated Funds of the Institution. Should these assets exceed in value the said total, the difference shall be transferred back to the credit of the Unappropriated Funds, and be available for the purposes of the Institution; on the other hand, should the value of the said assets be less than the total aforesaid, the deficiency shall be applied by a transfer from the latter branch to the former.

XLIV. At the same periods the Managers shall prepare and submit a complete valuation of the assets and probable liabilities of the Unappropriated Funds, and found thereon a recommendation for an increase or decrease of the contributions according to the necessities of the Institution.

XLV. It is hereby declared that the old rules of the Bengal Civil Fund, as they stood on the 31st December, 1849, are and will continue hereafter to be in force, in respect to the families of subscribers who died on or previous to that date, as also to the families of all subscribers, then retired from the Service who have retained a contingent interest in the Fund. And all allowances granted to such families will be regulated as heretofore according to the provisions of those rules, in the same manner as if the new rules had not been passed. Provided that every widow now deriving support from the Fund, shall, in case of re-marriage, be entitled to an allowance of £150 a year, if residing in Europe, or of Rupees 150 a month, if residing in India, subject to limitation under the old rules to the extent of any private income she may possess or acquire in excess of £100 a year, or Rupees 100 a month, as the case may be.

RULES OF THE BENGAL CIVIL SERVICE ANNUITY FUND, AS ADOPTED AT THE SPECIAL GENERAL MEETING OF SUBSCRIBERS ON 14TH FEBRUARY, 1853.

1. The Subscribers to the Bengal Civil Service Annuity Fund are the Covenanted Civil Servants upon the Bengal Establishment. They shall continue as long as they remain in the Service to contribute for purposes of the Fund; four per cent. of their salaries and all other public emoluments whatever (travelling allowance alone excepted).

2. The Annuities are fixed at 10,000 Sicca Rupees payable in India, or £1,000 Sterling payable in England. In discharge of each Annuity payable in England, the sum of £1,000 Sterling shall be paid to the Annuitant through the Company's Treasury in London, the Managers of the Fund undertaking to pay over to the Government of Bengal 10,000 Sicca Rupees for every year's Annuity so paid.

3. Those Subscribers only shall be qualified for Annuities of the amount aforesaid, who have served in the Civil Service 25 years and actually resided 22 years in India.

4. The Annuities of each year shall commence with the 1st of May, and shall be payable quarterly at the close of each quarter and to the date of the Annuitant's decease.

5. The number of Annuities assignable on account of each year from the 1st of May 1851, shall be ten, and they shall be available, subject to the provisions of the following rules, to all qualified Subscribers according to their seniority in the gradation List of the Service as fixed by the Court of Directors. But if any Subscriber having become qualified for an Annuity, shall retire from the Service before the option of an Annuity may devolve upon him, he shall nevertheless be entitled to the same in his turn, as though his name had remained upon the gradation List of the Service.

6. On the 1st of November of every year, the ten Annuities that are to become available on the following 1st of May, shall be assigned to those qualified Subscribers, in order of seniority, from whom applications for Annuities shall have been received before the said 1st November. After the 1st of November, any of the said ten Annuities which shall not have been assigned under the preceding clause, shall be assignable to all qualified Subscribers in order of application.

7. As soon as possible after the 1st of May of every year, the Managers shall notify in the *Calcutta Gazette* the number of Annuities of that year which remain unassigned, and also the number of Annuities (if any) which remain not taken from previous years, and these Annuities shall be assignable at any subsequent period to all qualified Subscribers, in order of application. But for the year in which any such Annuity may be assigned, a rateable portion only of the Annuity shall be payable, calculated from the date on which it is taken.

8. Every Subscriber to whom an Annuity shall be assigned, shall be required in order to entitle him to the full Annuity fixed by Article II., to pay, on or before the date from which the Annuity is to commence, the difference between one-half of the value of the Annuity and the accumulated amount of his contributions, whenever the latter shall be less than the former.

The value of an Annuity on the life of any Subscriber shall be determined by such Table of Valuation as may be sanctioned by the Hon'ble the Court of Directors, and to determine the accumulated amount of a Subscriber's contributions, a separate account shall be kept for each

Civil Service Annuity Fund.

Subscriber, and the account shall be made up annually, with interest at the rate of 6 per cent. calculated on the Subscriber's contributions as allowed by the Court of Directors.

10. Any Subscriber who shall decline to pay the difference defined in the foregoing article, shall be entitled to an Annuity of a reduced amount, to be calculated in the following manner, viz., he shall receive an Annuity of 5,000 Sicca Rupees or of £500 Sterling, increased by such additional amount as his contributions may suffice to purchase, according to the Table of Valuation in force.

10. The acceptance of the resignation of the Hon'ble Company's Service is an essential condition to entitle a Subscriber to an Annuity, and Annuitants will not be permitted by the Court of Directors to return to the Service; any Subscriber therefore, to whom an Annuity shall have been assigned under Article VI or VII, who shall fail to tender his resignation of the Hon'ble Company's Service, on or before the 1st of May following, shall not only forfeit his right to the Annuity so assigned, but shall also forfeit a sum of Ten Thousand Rupees, to be paid by the Subscriber within one week from the said 1st of May, or in the event of non-payment by the Subscriber, to be deducted from his allowances by the Civil Auditor, in such instalments, not exceeding one-half, or being less than one-third of his total Official receipts, as the Managers may direct, and in the latter case, interest shall be charged at the rate which the Fund would have received had the amount of the fine been paid by the Subscriber within the prescribed term of one week from the 1st of May.

No Subscriber who shall incur the above penalty shall be deemed entitled to an Annuity until the amount of such penalty, together with all interest which may become due thereon, shall have been fully paid.

11. Any Subscriber not having served 25 years and actually resided 22 years, who may be compelled to retire from the Hon'ble Company's Service by sickness, duly certified as below provided, shall be entitled to receive either a donation or an invalid Pension of reduced amount, as follows:—

• If he shall not have completed 10 years' residence, a donation of 5,000 Sicca Rupees or £500 Sterling.

• If he shall have completed 10 years' residence but less than 15 years, a pension of 2,500 Sicca Rupees, or £250 Sterling.

• If he shall have completed 15 years' residence, a pension of 5,000 Sicca Rupees or £500 Sterling.

12. The grant of invalid pensions shall be made in all respects upon the same principles as are prescribed in Articles VIII. and IX. of the Rules; that is to say, in order to entitle a Subscriber to an invalid pension of £500 a year, or £250 a year, as the case may be, it will be necessary for him to make good one-half of the value of such pension, but it will be optional with him, in the event of his subscriptions not being equal to the half value, to take a reduced pension of £250 or £125 a year increased by such additional amount as his contributions may suffice to purchase according to the Table of Valuation in force.

13. It will be necessary for every Subscriber applying for an Invalid Pension, to furnish to the Managers of the Fund, a Certificate from his usual Medical Attendant, countersigned either by the Medical Board in Calcutta, or by a special Committee of Medical Officers, to consist of not fewer than three Members, convened by the Hon'ble the Lieut-Governor of the North-Western Provinces, certifying that he is, from some permanent cause or complaint, incapable of rendering service in the climate of India, and it will further be necessary that such certificate be confirmed by the examining Physician of the Hon'ble Court of Directors, after the Subscriber shall have resided one year in England.

14. The value of every Annuity or Pension which is granted, shall be passed to a separate Account under the head of "Appropriated Funds," and to the debt of that Account shall be entered all payments in satisfaction of Annuities.

15. At the close of every third year, the Managers shall calculate, according to the Table of Valuation then in force, the value of the existing Annuities and Pensions, and shall compare the total of their values with the assets of the "Appropriated Funds." If the amount of these Assets shall exceed the said total, the difference shall be carried to the credit of the Unappropriated Funds, but if the amount of the assets of the Appropriated Funds shall be less than the total aforesaid, then the deficiency shall be made good by a transfer to the head of "Appropriated Funds" of any balance remaining unappropriated, and a representation with regard to the difference (if any) shall be made by the Managers to the Government of India.

16. Every Annuitant or Invalid Pensioner, shall be furnished with a Certificate of his admission to an Annuity or Pension, under the hands of not less than three of the Managers of the Fund, and a duplicate of this Certificate shall be furnished to the Government for transmission to the Hon'ble Court of Directors.

17. Any Subscriber who may be dismissed from the Hon'ble Company's Service shall forfeit

Civil Service Annuity Fund.

18. The interest in the Fund of any Subscriber who may be suspended from the Hon'ble Company's Service, shall be in abeyance during his suspension, and shall revive upon his restoration. But this provision shall not be held to apply to Civil Servants out of employ (from whatever cause) who shall be permitted to draw the subsistence allowance of their rank.

19. The affairs of the Institution shall be conducted by nine Managers, of whom four shall be ex-officio, viz. the Secretary to the Government of India in the Financial Department, the Accountant to the Government of Bengal, the Sub-Treasurer and the Civil Auditor. The other five shall be Subscribers and shall be elected at a General Meeting of Subscribers, to be held in January of each year in Calcutta.

20. The Sub-Treasurer of Government shall, with the permission of Government, be the Treasurer of the Institution, and the Funds of the Institution shall be deposited in the public Treasury, subject to the direction and control of the Managers.

21. The Managers, or the Majority of those present at a Meeting of five or more, or if less than five be present, any three Managers who may concur in opinion, shall be competent to decide in the first instance upon all matters relative to the Receipts and Disbursements of the Fund, as well as generally upon all subjects connected with the management of the Fund, not expressly reserved for determination by a General Meeting of Subscribers. But the decisions of the Managers in all cases shall be liable to revision by a General Meeting.

22. The Managers shall appoint a Secretary and Accountant to the Fund, and shall fix such allowance for him, payable from the Fund, as they may consider adequate to his services. The officer so appointed shall act under the direction of the Managers, and shall attend the General Meetings of the Subscribers. The proceedings of the Managers, and generally all papers appertaining to the Fund, shall be kept under the charge of the Secretary and Accountant to the Fund, and shall on application to him, or to the Managers, be open to the inspection of any of the Subscribers.

23. All appointments to the office of Secretary and Accountant to the Fund, as well as the appointments of any other persons whom the Managers may find it necessary to employ, and the allowances assigned to such officers, shall be subject to the control of a General Meeting.

24. A General Meeting of the Subscribers shall be held in Calcutta in January of every year, (or as soon afterwards as the Accounts can be made up and prepared for inspection) to receive and audit the accounts of the preceding year, and to decide on all questions duly brought before it. The Managers or any nine Members of the Institution may convene at any time a special General Meeting at the Presidency, by notice in the *Calcutta Gazette*, and in two newspapers, one of the two being a newspaper published in the North-Western Provinces, provided that the day fixed for holding such special Meetings and the object of it be advertised as above, at least six weeks before the same is held.

25. Upon all questions duly advertised for discussion at a General Meeting, whether annual or special, all Subscribers shall be allowed to deliver their sentiments and votes by proxy, and all questions shall be determined by a majority of two-thirds of the Subscribers, who may be present at such General Meetings, or who may vote thereat by proxy. But the concurrent voices of nine Members at least actually present, shall be requisite to determine upon any question whatever. General proxies will only be allowed on behalf of Members who have left India, and unless revoked will be of force during the absence of such Members, or until the receipt of intelligence of their death.

Parties holding general proxies, shall be entitled to vote on any question whatever that may arise. The holder of a special proxy shall be entitled to vote on any final point connected with the question for which the special proxy was given, that may be discussed at the meeting summoned for its determination.

No person shall hold a general or special proxy, or be entitled to vote at any General or Special Meeting, who is not a Subscriber to the Fund.

It shall be the duty of the Chairman of every General Meeting, after taking the votes of those present on each question, to call for the votes of proxies on the same question, the Chairman shall also carefully examine the proxies, to see if they are in the prescribed form, and if not, shall reject them.

The forms of general and special proxies shall be those marked A and B appended to the Rules.

26. Upon all general questions, involving any increase or diminution of the rate of the contributions, or any essential addition to, or alteration in, the original rules and principles of the Institution, no decision of the Subscribers shall be valid or have any effect until sanctioned and approved by the Court of Directors, to whom all parties considering themselves aggrieved by such decision, shall have a right of appeal, and the decision of the Court of Directors shall be final. Provided, however, that the determination of a General Meeting at such cases and questions be referred to the Subscribers at large for adoption or rejection, before being submitted for the sanction and approval of the Court of Directors.

The manifest must be full and true as to all goods and packages imported under penalties, including refusal of port clearance.

No claim for remission of duty on goods, stated to be damaged or unmerchantable, shall be admitted, unless so found at the Custom House, — when, after previous advertisement in the Government Gazette, they must be sold on the wharf and pay duty on gross amount sales.

Rules for wharfage and godown-rent may be learnt on personal application to the Wharf Comptroller.

No arms nor military stores to be imported without the special sanction of Government.

No claim for drawback shall be admitted, unless the goods have been regularly passed, and duly entered in sworn export manifest, nor in any case for goods shipped, after the issue of port clearance.

No Pilot shall allow any goods to be taken on board a vessel which has obtained her port clearance, without seeing a certificate from the Custom House, which document is to be signed by the Pilot and returned to the Collector.

The Pilot shall detain the vessel for further orders from the Master Attendant, if any goods, without such certificate, should be taken on board by the commanding officer, and such goods are to be detained by the Pilot, and shall be liable to confiscation, when the Pilot will obtain his proper share of reward. Moreover, goods seized, in the attempt to ship them clandestinely shall be liable to confiscation.

All goods transhipped in port are liable to the prohibited duty for importation, and if the transaction be regular, may claim drawback. But goods which are transhipped, without due permission first obtained, or shipped or attempted to be shipped, on any other vessel than that for which they may have been passed at the Custom House, or without pass, shall be liable to confiscation.

No arms, ammunition, nor military stores, shall be shipped without the special sanction of Government.

To protect from imposition such persons as are strangers in the office, and who employ natives to transact business for them at this office, it is notified that for every sum taken as government custom or duty, a receipted bill is given under the signature of the Collector, or of his deputy, or his covenantal assistant.

Clearances, whether inward or outward, can be given only in regular turn, and it is for commanders or others on their part, to see that their applications be duly noted, with the date and hour of receipt by the Supervisor respectively. Applications for outward clearance, (on export manifests, cannot be received, unless that such applications be presented at least three complete days previously to the date on which port clearance is desired, in order that time may be allowed for the adjudgment of export cargoes, though it will be issued earlier if practicable.

No fees are taken for any affidavits sworn in this office, on subjects of Custom House business, nor are any fees whatever allowed to be taken by any person belonging to this establishment, whether sitting within the office, or stationed out of doors.

Importers of gunpowder are requested to refer to the notification by order of the Board of Customs, dated the 18th and published in the Government Gazette of 2nd January 1823.

The proprietors of dock yards and the public at Lugo are requested to take notice, that no goods nor packages are allowed to be imported, exported, or landed to be shipped, transhipped or removed from vessels to sloops or boats, after shipment, without due sanction from this office. Whether the same be liable to or exempt from duty. Attention is directed to clause 7 section 45 to sections 61, 61 74, 82, 83 and 91, of regulation IX of 1810 and to section 8 of regulation III of 1810, also to clauses 4 and 5 of Government Notification of the 28th June 1822, for conditions of certain exemptions.
